PUBLIC HOLIDAYS

In most States when the holiday falls on Sunday, the Monday following is observed.

Public holidays in some states are observed as such only by common consent, or when appointed by the Governor, and not by legislative enactment.

-
- ALABAMA—Jan. 1 and 19, Feb. 22, Mardi-Gras, April 13 and 26, June 3, July 4, Labor Day, Oct. 12, Nov. 11, Thanksgiving, Dec. 25.
- ALASKA—Jan. 1, Feb. 12 and 22, March 30, May 30, July 4, Labor Day, general election, Oct. 18, Nov. 11, Thanksgiving, Dec. 25.
- ARIZONA—Jan. 1, Feb. 12, 14 and 22, May 30, July 4, Labor Day, Oct. 12, election day, Nov. 11, Thanksgiving, Dec. 25.
- ARKANSAS—Jan. 1 and 19, Feb. 22, May 30, July 4, Labor Day, election days, Nov. 11, Thanksgiving, Dec. 25.
- CALIFORNIA—Jan. 1, Feb. 12 and 22, Good Friday from noon to 3 p.m., May 30, July 4, Labor Day, Sept. 9, Oct. 12, general election, Nov. 11, Thanksgiving, Dec. 25.
- COLORADO—Jan. 1, Feb. 12 and 22, May 30, July 4, Aug. 1, Labor Day, Oct. 12, general election, Nov. 11, Thanksgiving, Dec. 25.
- CONNECTICUT—Jan. 1, Feb. 12 and 22, Good Friday, May 30, July 4, Labor Day, Oct. 12, Nov. 11, Thanksgiving, Dec. 25.
- DELAWARE—Jan. 1, Feb. 12 and 22, Good Friday, May 30, July 4, Labor Day, Oct. 12, election day, Nov. 11, Thanksgiving, Dec. 25.
- DISTRICT OF COLUMBIA—Jan. 1, Inauguration Day, Feb. 22, May 30, July 4, Labor Day, Nov. 11, Thanksgiving, Dec. 25.
- FLORIDA—Jan. 1, 19, and Arbor Day, Feb. 22, April 26, Good Friday, May 30, June 3, July 4, Labor Day, Oct. 12, Nov. 11, general election, Thanksgiving, Dec. 25.
- GEORGIA—Jan. 1 and 19, Feb. 22, April 26, June 3, July 4, Labor Day, Oct. 12, Nov. 11, Thanksgiving, Dec. 25.
- HAWAII—Jan. 1 and 30, Feb. 12 and 22, Good Friday, May 30, June 11, July 4, Labor Day, Regatta Day, primary and general elections, Nov. 11, Thanksgiving, Dec. 25.
- IDAHO—Jan. 1, May 30, July 4, Labor Day, Nov. 11, Thanksgiving, Dec. 25.
- ILLINOIS—Jan. 1, Feb. 12 and 22, Good Friday, May 30, July 4, Labor Day, Oct. 12, Nov. 11, Thanksgiving, Dec. 25.
- INDIANA—Jan. 1, Feb. 12 and 22, Good Friday, May 30, July 4, Labor Day, Oct. 12, election day, Nov. 11, Thanksgiving, Dec. 25.
- IOWA—Jan. 1, Feb. 12 and 22, May 30, July 4, Labor Day, Nov. 11, Thanksgiving, Dec. 25.
- KANSAS—Jan. 1, Feb. 12 and 22, May 30, July 4, Labor Day, Oct. 12, Nov. 11, Thanksgiving, Dec. 25.
- KENTUCKY—Jan. 1, 19 and 30, Feb. 12 and 22, May 30, June 3, July 4, Labor Day, Oct. 12, Nov. 11, Thanksgiving, Dec. 25.
- LOUISIANA—Jan. 1, 8 and 19, Feb. 22, Mardi-Gras in New Orleans, etc., Good Friday, May 30, June 3, July 4, Aug. 30, Labor Day, Oct. 12, Nov. 1 and 11, Thanksgiving, Dec. 25, and Sat. p.m.
- MAINE—Jan. 1, Feb. 22, April 19, May 30, July 4, Labor Day, Nov. 11, Thanksgiving, Dec. 25.
- MARYLAND—Jan. 1, Feb. 12 and 22, Mar. 25, Good Friday, May 30, July 4, Labor Day, Sept. 12, Oct. 12, election day, Nov. 11, Thanksgiving, Dec. 25, every Saturday p.m. in certain localities.
- MASSACHUSETTS—Jan. 1, Feb. 22, March 17 (local), April 19, May 30, June 17 (local), July 4, Labor Day, Oct. 12, Nov. 11, Thanksgiving, Dec. 25.
- MICHIGAN—Jan. 1, Feb. 12 and 22, May 30, July 4, Labor Day, Oct. 12, election days, Nov. 11, Thanksgiving, Dec. 25.
- MINNESOTA—Jan. 1, Feb. 12 and 22, Good Friday, May 30, July 4, Labor Day, Oct. 12, Nov. 11, Thanksgiving, Dec. 25.

Tuesday, January 1, 1963

1st day - 364 days follow

New Year's Day

a little bibliographic work this morning, but spent most of the day watching T.V.; first the Rose Parade; then the various bowl football games. The U.S.C. - Wisconsin game had a very close and exciting finish, and wore me out. Checked Christmas cards in the evening.

Wednesday, January 2, 1963

2nd day - 363 days follow

At the office this morning. Conference at some length with H. Dillin and F.R. Raymond on certain matters of publicity hinging on the recent F.P.C. El Paso rate decisions.

Went over to Arey-Jones from whom had ordered a "National" Dairy similar to the ones I have used for many years. Although ordered at least a month ago, it still hadn't arrived, so I decided to change to a "Standard" which all the stationers seem to handle now.

Went around to the banks and had my savings accounts balanced, as required for income tax returns. Also made deposits.

Graydon Hoffman came in for a short conference this morning.

Took Harry and Grace to dinner at the Chuck Wagon tonight.

Worked quite late formulating the basic data for the panel at Rotary tomorrow. My part is the economic situation in the community.

Thursday, January 3, 1963

3rd day - 362 days follow

At the office this morning, spent all the time getting ready for the noon panel program at Rotary and accumulated a first-class set of statistics on San Diego's present and future economic situation.

Carl Ritter of the Union called up and gave me a few questions he proposed to ask.

But the actual meeting, as far as my part was concerned, was largely gone. I was badly handicapped by not being able to hear or understand Ritter's questions. So most of my preparation went down the drain. I got some good laughs, but certainly I didn't tell anyone anything of importance.

Went to the bank and did some shopping after the meeting, so it was after 3 when I got home, and was quite tired out.

Friday, January 4, 1963

4th day - 361 days follow

At the office this morning.

Got some bibliographic work done with Chemical Abstracts.

Accounts most of the afternoon and evening. They were tangled and hard to straighten out.

Harry came down for awhile this afternoon.

Saturday, January 5, 1963

5th day - 360 days follow

Letters and bibliographic work today.
Had a talk with Phil 11-12. Also
watched the Senior Bowl game for awhile.
An exciting finish.

Then back to bibliography and other
miscellaneous items.

Larry came down to say goodbye. He
returns to Stanford tomorrow.

Sunday, January 6, 1963

6th day - 359 days follow

Epiphany

Got up this morning at 3³⁰ to work on the bibliography. Worked until 5¹⁵. Continued work later in the morning.

Went out to Ned Price's place in Rancho Santa Fe for lunch. The Episcopalian minister and his wife also there. Ned has a wonderful country place.

Dinner tonight at the Coronado Hotel with Col & Mrs Kelly of Buffalo. Other guests the Beckers and Italls.

Monday, January 7, 1963

7th day - 358 days follow

At the office this morning. Philip started work for the Company this morning. I got the first telephone call intended for him, an event that will be duplicated many times in the future.

Hi Dillin showed me an article from a recent Los Angeles Times listing the officers of the principal California utilities. They had me placed as Chairman of the Board of the Gas Co., -- a very unfortunate and disconcerting entry. I could see Hi didn't like it.

Received today from Dr. Henry M. Parrish a complete set of his snake-bite papers down to date, including some not yet published. This is a very important acquisition.

Worked on the Bibliography today and made good gains.

Called Phil and talked over the events of the first day with him.

Tonight I finished the first long-hand draft of the bibliography. Of course there will be additions, but it is ready for copying if necessary.

Tuesday, January 8, 1963

8th day - 357 days follow

Battle of New Orleans

Got up at 3³⁰ this morning and worked until 5 on the bibliography.

At the office this morning.

Conference with Hi Dillin on Public Utility Commission business for an hour.

Again worked on bibliography today, particularly on the Parish acquisition and made considerable progress.

Wednesday, January 9, 1963

9th day - 356 days follow

At the office this morning.
Briefed some Parish papers.
Wrote several letters.

Got a lot done on the Parish papers
today.

Thursday, January 10, 1963

10th day - 355 days follow

At the office this morning.
Went through Chemical Abstracts, vol 55, July-Dec. 1961. Have already been through vol. 56. I will not do any more of these. The articles, with very few exceptions, are too technical to be of use to me.

Went over to the Public library and tried to get a lead to the Reuss paper, but no luck. The magazine does not seem to be listed in the Union List of Periodicals.

Went through the Readers Guide to Periodical literature from March 55 down to date. All but a few of the articles cited are either in Outdoor Life or the Science News letter. The field covered seems restricted to a few popular magazines. I made a list of those that may have some value so I can follow them up.

Friday, January 11, 1963

11th day - 354 days follow

At the office for a short time this morning. Phil. dropped in for a chat. Meeting of the Library Commission from 10 to 11⁴⁵.

This afternoon I went to the County Medical Society library and worked there from 1 to 3⁴⁵. Went over the recent copies of the Index Medicus

also the Current list of the Medical Literature of the Armed Forces Medical Library in Washington. From these I got some good leads. I think I now have, or will have when I have read these references, enough items for the bibliography as far as Chapters 11-13 inclusive are concerned. The references from these two serials ran from 1956 to 1961 inclusive.

Tonight organized the material I got today.

Saturday, January 12, 1963

12th day - 353 days follow

Went over to the Natural History Museum and worked in the library for a couple of hours, but didn't get far as the librarian was not on duty and I couldn't find the serials I sought. It was disquieting to run into a good item purely by chance.

Went to the Zoo and autographed a set of Rattlesnakes for David O. Scott.

The rest of the day I worked arranging more bibliographic items to check; also called for Amy Hamerton at the air port.

Sunday, January 13, 1963

13th day - 352 days follow

Today, distressed by the purely accidental discovery of the Fitch paper containing pertinent data on rattlers yesterday, I decided to give the Zoological Record another going over. I had previously surveyed the Record only in the subject index looking for rattler items. Today I went over the Record for 1955-1958, the only volumes available to me at home, and went through the author index, making slips for all those that might contain worthwhile rattler material. This was a big job but I got through with it despite some diversionary chores: Took Janet to Sunday School; called on Phil and discussed some of his newly acquired problems; Minton Fettes called to discuss Zoo business; and Allan and Jean came down to see a repeat of the Jackie Kennedy tour of the White House on T.V. But still I finished making the slips for the Zool. Record articles. Next I shall have to see what I have in my own library and plan to get the rest as I can in the Medical & Natural History libraries.

Worked late tonight and got all the bibliographical ready for a real campaign. This was a real productive day. Once more I am a little encouraged.

Monday, January 14, 1963

14th day - 351 days follow

at the office this morning.
Various chores; Bohemian Baldy
to get some stuff for Larry.

Spent $2\frac{1}{2}$ hours this afternoon at
the Natural History Library and checked
the Zoological Record for 1959, which
is the latest available.

Tuesday, January 15, 1963

15th day - 350 days follow

At the office this morning. Wrote several important letters; also did some bibliographic work.

Heard this afternoon that ~~our~~ our erstwhile gardener Jose Felix Manueto who ran off with \$50 that gy had advanced for the purchase of a lawn mower was shot and wounded at Rosarita Beach by Danny Sanchez, a friend who was frequently around here in contact with Joe.

Went to a San Diego Symphony concert tonight; Berlioz Dramatic Symphony "Romeo and Juliet."

Wednesday, January 16, 1963

16th day - 349 days follow

Get the office this morning.

Made some bibliographic progress today, but not as much as I had hoped; always interruptions.

~~Wilmer~~ Wilmer Tanner called from Provo, Utah this afternoon. He had lost the letter I had written requesting an insert in Herpetologica asking for rattler photos. So I had to go down to the office and make copies of the letter which were sent to him by airmail.

Thursday, January 17, 1963

17th day - 348 days follow

Benjamin Franklin's Birthday

Went to a meeting of the State of California Air Pollution Control Board this morning 9³⁰ to 12⁵⁰. Was impressed by the highly technical and serious study of the problems of moving vehicles. Askew is chairman.

Then to the office for a brief time. Rested most of the afternoon.

Worked on the bibliography tonight and made quite a bit of progress.

Friday, January 18, 1963

18th day - 347 days follow

Conference with Dellin, Seninott, and
Zitlau from 9 to 10¹⁵ on interconnections.
Then with Phil for a half-hour or more -
some shopping.

Baby sitting this afternoon.

Dinner at home for 22 people tonight.

Saturday, January 19, 1963

19th day - 346 days follow

Worked on bibliographic projects almost all day and made good progress.

Heard from the Press today; the contract as submitted is satisfactory.

Scholia meeting tonight; Nat Price talked on the European Common Market, a lively discussion.

Last filling of my Cad: 144 miles / 18.4 gals
= 7.8 m. p. g.

Sunday, January 20, 1963

20th day - 345 days follow

More bibliographic work today.
Fair progress.

Joe Copp came around and worked on his reproduction project in the library. Took quite a bit of my time running items down for him.

Also Ricky Kleauz came around for material on Goldsmith.

Monday, January 21, 1963

21st day - 344 days follow

At the office this morning.
meeting of Executive Committee, 10 to 12;
followed by Board of Directors 12-2³⁰.
Miscellaneous work this afternoon.

Tuesday, January 22, 1963

22nd day - 343 days follow

This morning at 7¹⁵ went out to a breakfast at Torrey Pines Lodge with Dr. George Lindsay. The purpose was a meeting of the Greater San Diego Industry - Education Council; I was there in the place of Norman Lawson to accept a citation given to the Natural History Museum. There were business sessions and a talk by Dr. Herbert C. York on the present status of the University of California and its future expansion, especially the La Jolla branch. This was quite interesting but I didn't get down to the office until nearly eleven.

Baby - sat this afternoon.

Meeting of the trustees of the zoo. 5³⁰ to 9 - They OK'd the contract for the publication of Rattlesnakes, second printing, with the U.C. Press.

This morning Geo. Lindsay and I took advantage of the trip to Torrey Pines and discussed at length, both going out and on return, the take-over by the Museum of my reptile collection, methods of preservation, records, files, and all the rest. Will have important results, if carried out.

Wednesday, January 23, 1963

23rd day - 342 days follow

At the office this morning.
Conference with Dillin, Sainnott, &
Titlow about the 4-utility transmission
line.

Some bibliographic work today.

Dave brought around some visitors
late this afternoon: Dr. D G Constantine, a
bat expert of the US Dept of Public Health,
stationed at Las Cruces, N.M.; WS Murphy DVM
of the San Diego Dept of Public Health; and
F.A. Baskett of Western Salt.

Thursday, January 24, 1963

24th day - 341 days follow

At the office this morning.
Made bibliographic progress
today. Prepared working lists for
the Natural History and Medical
libraries.

Tonight ~~we~~ went to Howard
Chernoffs for dinner. Saw his new
house. Other guests: Peg White, George
Giddied, the Louis Klapps.

Friday, January 25, 1963

25th day - 340 days follow

At the office this morning. Finished a lot of chores and some shopping.

Got another tier of 3x5 card drawers today and spent a lot of time this afternoon fixing them up, and transferring cards. At last the 3x5 cards are no longer so crowded that one can see what the cards contain.

Today I took the maps (range maps) to Kobles for copying, the work to be done outside of business hours and charged to me.

Tonight went to a Los Angeles Philharmonic concert. The first part was fine; the last modern and not to my liking.

Saturday, January 26, 1963

26th day - 339 days follow

A lot of miscellaneous clean-up work today. I was as active as my fading energy permits, but bibliographic progress was small.

Joe Copp worked this afternoon in the library, also until late tonight.

Sunday, January 27, 1963

27th day - 338 days follow

Worked on income tax until 2 P.M.
Gathered most of the raw material.
Also worked on my library index
cards, which haven't been filed for a
long time.

Joe Copp started work at noon and
worked until about 7

Made progress on card filing; worked
until tired out at 8 P.M. It is a lot more
pleasant to file with plenty of room in
each drawer.

Monday, January 28, 1963

28th day - 337 days follow

Got up this morning at 2 and did a little work on the card file.

Got a second good sleep from 3 on.

Solar directors meeting from 9 to 11³⁰.

Then to gas Co office where Sherwin and I had a conference with Hi on various matters until 12³⁰.

Finished the filing of 3 x 5 cards tonight; up to date for the first time in a long time.

Tuesday, January 29, 1963

29th day - 336 days follow

This morning worked from 2³⁰ until 5²⁰ on the preliminary draft of a talk to be made at the Santa Fe Ranch conference next Saturday on some factors in public relations. At the office this morning.

This was another disappointing day. I had hoped to finish the Santa Ranch talk for Saturday but a lot of things came up unexpectedly and progress on this was poor. Particularly there were a lot of calls about ~~on~~ a protest at the City Council meeting concerning a controversial book on the Public library shelves -- The Temptations of Christ, a novel by a Greek novelist.

This involved a lot of time with many interruptions. At least I did get done some work not requiring steady application, namely the filing of a large accumulation of pamphlets. At last, for the first time in many weeks, I am up to date with all pamphlets, as well as their index cards, all filed down to date.

Wednesday, January 30, 1963

30th day - 335 days follow

At the office this morning. Made some progress with the Rancho Santa Fe talk, but then went over to the library for a conference with Moose about the controversial book. But Moose didn't show up so I drafted a letter to City Manager Fletcher postponing action until the next library commission meeting. Tonight went over to Garty Goulds and then to Islandia for dinner.

Thursday, January 31, 1963

31st day - 334 days follow

Last Day for employers to file quarterly Social Security Tax Return
and Wage Report, covering three previous calendar months

At the office this morning, worked
hard on the Rancho Santa Fe talk; made
good progress and almost finished it.

Friday, February 1, 1963

32nd day - 333 days follow

At the office this morning. Continued work on the Santa Fe Ranch talk. Finished it.

John Olean came over this afternoon to study the proposal to microfilm the accession records of both collections.

Early this morning I coughed up two blood clots that seemed to come from the spot in my right lung or trachea where I have felt pressure for many years. It seemed to relieve the pressure.

The Goulds came to dinner tonight.

Saturday, February 2, 1963

33rd day - 332 days follow

Only faint blood traces this morning.

Worked on accounts this morning

Went out to the Gas Co supervisors meeting at Rancho Santa Fe. After lunch delivered my talk on lessons from the past. Planned to go over all night.

Then attended one meeting on Communications and another on Public Relations. Being by then pretty tired, I came home.

Joe Copp came in just at that time.

Worked late tonight on accounts

Sunday, February 3, 1963

34th day - 331 days follow

This morning went out to Rancho Santa Fe and attended the final meeting of the Gas Co Conference from 9 until 12. Then had lunch at the Inn and returned to town.

at the Inn at 8⁵⁰ saw a lot of Uta stansburiana very active in vines along a rock wall. It was quite warm. They were very dark in color.

Spent quite a bit of time talking over various problems with Joe Copp this afternoon.

Monday Feb 4, continued with which he disconnected all the lines to the old pump and reconnected them to the new. He had all the tools he needed -- no more and no less. I think the whole job, after he arrived, took only about $3/4$ hour.

Drove the car home and left it in Tussey's garage.

What luck that this didn't happen on the road to Santa Fe Ranch!

Pretty well tired out tonight.

Monday, February 4, 1963

35th day - 330 days follow

This was a lively day.

at the office most of the morning. Expected to have a conference with Hi on P.U.C. affairs but he was tied up with other matters.

Left for Rancho Santa Fe at 11 to make a rattlesnake talk before the Rancho Santa Fe Rotary Club. This seemed to go over quite well. There were about 30 present and they seemed interested. They gave me 30 minutes; I found that 40 would have been much better and will ask for this much if I give it again. A lot of members came up to ask questions at the end. Claude Conklin and Ned Price were among those present.

I had promised to be back at the office at 2³⁰ for a possible Executive Committee meeting so I returned to the office but Hi was still tied up. So I started for home at about 3¹⁵. Got as far as 9th & E and the car went dead in the middle of the street -- gas pump trouble as it turned out. An embarrassing spot for sure. Phoned the Gas Co 7th Street garage and 3 of the boys came over and manhandled me over to the curb, where, fortunately there was a vacant space. Phoned Tussey's garage and a man came down with a new pump, which he installed. I was impressed with the facility.
(Continued on Sunday, Feb 3)

Tuesday, February 5, 1963

36th day - 329 days follow

Spent a lot of time this morning suggesting revisions on a letter to the Commission, but it was too late to be of any use; the letter had already been sent. At the office part of the morning, but went over to see Miss Breed at the library from 9 to 10³⁰ to discuss the prospective meeting to discuss the controversial book about the Temptation of Christ.

At the Medical library from 1 to 3. Got through with a survey of recent volumes of the ^{American} Journal of Tropical Medicine and Hygiene. At 3 I was so tired I had to give up and go home for a rest.

Today got the semi annual report of sales of Rattlesnakes for the period 7-1-62 to 12-31-62. There were 75 sets sold. I should guess there remain about that many unsold.

Wednesday, February 6, 1963

37th day - 328 days follow

At the office this morning.

Today made a start on a subject numbering system.

Went to the SDCo Medical library at 12⁴⁰, immediately after lunch and worked until 3¹⁵, when I was tired out. Cleaned up quite a few items, but it is evident they will hardly have more than half of what I have on my medical list.

Thursday, February 7, 1963

38th day - 327 days follow

At the office this morning. Had a conference with Sherwin on some organizational problems.

Made headway on some bibliographical items.

Worked at the medical library from 12³⁵ to 2⁴⁵ and cleared up the remaining items that the kids -- all but 2 items that were loaned out at the time.

Made other bibliographical progress today; I am a little encouraged.

Friday, February 8, 1963

39th day - 326 days follow

At the office this morning.
Wrote letters.

Tonight went to the Annual Dinner
of the San Diego Opera Guild as the guests
of the Jess Haughis at the Coronado Hotel.

Saturday, February 9, 1963

40th day - 325 days follow

Spent the entire day on my personal annual financial statements and almost finished them.

Wasted some time on my Monroe Calculator which was found to be out of order, although I thought it was ok when I put it up on the shelf in the closet, out of the kid's reach.

In the evening went to a party given by Mrs. Hansen at the Valley Ho. We had some difficulty finding the joint; it was raining - our first good rain since last spring. The food was good but they allowed the loud speaker which brought in lousy music to play after dinner in our private dining room with the result that it was impossible to hear anything that anybody said. Got home about 11.

Joe Copp worked on his sidewinders in our basement today.

Sunday, February 10, 1963

41st day - 324 days follow

Septuagesima Sunday

Took advantage of the fact that Joe Copp had brought in a fine binocular microscope from Scripps Institution and worked over the head scales of the 4 specimens of C. intermedius from Oaxaca belonging to Bogert. This took me from 7 to 8⁴⁵ AM.

Worked hard the rest of the day (until 9³⁰ PM) on the yellow sheets to accompany the income tax return, and virtually finished them. This is a large part of the labor of preparing the return.

Joe Copp worked virtually all day in the basement on his Sonoran sidewinder problem.

Took Sabin Type 3 Oral Polio Vaccine this afternoon.

Monday, February 11, 1963

42nd day - 323 days follow

Edison's Birthday

At the office this morning.

Finished the auxiliary yellow sheets for my income tax. Also made xerox copies of the yellow sheets.

Went to the bank; also shopping for bakery goods for Larry.

Went over to the Natural History library and worked there from 2³⁰ to 4 and 5 to 6. Attended a meeting of the directors between.

Gave Lindsay the films of the accession catalogue of the herp collection.

Tuesday, February 12, 1963

43rd day - 322 days follow

Lincoln's Birthday

This morning a man named ~~Panc~~ Pancake, a wheat rancher from Kansas called up and told me at great length about a cure for rattlesnake bites they used extensively on animals in Kansas and Nebraska. The antidote contains nitric acid, sulfuric acid, camphor, and turpentine -- relative amounts not stated. Got down at the office nearly an hour late.

Had a talk with H. J. Dillin about his conference yesterday with the Commission on passing on to the electric customers the reduction in gas fuel cost. Went out and got a key to the Natural History library; also ordered a book by Bellairs.

At 12:15 met Charles C. Camp the paleontologist with his wife and another lady at the Zoo. Took them to lunch; we had a very interesting chat. Large crowd because of the school holidays.

Went to the Natural History Museum (1:30) library and worked there until 4:30. Accomplished quite a lot; cleared up a lot of items. Pretty tired when I quit.

Wednesday, February 13, 1963

44th day - 321 days follow

At the office until 10. Conference with H. on Commission matters. Meeting at home until 12³⁰ to discuss books.

Caught up on my inventory of corporate stocks this afternoon.

Did Gilman of the S.D. Chargers called up to find whether it would be dangerous (because of rattlers) for his men to train at Boulevard this summer, particularly in July. I gave him some advice. He surprised me by not knowing what the rattle of a rattlesnake looked like -

Thursday, February 14, 1963

45th day - 320 days follow

Valentine's Day

At the office this morning.

Conference with Hi Dillin on the utility pool and the allocation of costs between the several member companies.

Went to women's day Rotary meeting at Star Dust Cafe, Mission Valley, 1 to 2:10.
Wrote some letters.

Friday, February 15, 1963

46th day - 319 days follow

At the office for a short time. Turned over to him his letter to the stockholders to be contained in the annual report, made a few minor suggestions.

Then went over to the library where we had a commission meeting that lasted from 10 to 12. After completing the regular business of the commission we proceeded with a discussion of the retention or suppression of the ~~the~~ controversial book "The Last Temptation of Christ" a novel by Nikos Kazantzakis. There were about 15 outsiders present, including the newspaper reporters. 6 or 8 people spoke. There were 3 who took a strong religious stand against the book, and 3 others, who while not liking all aspects of the book, objected to censorship in all its forms. Miss Breed told at length of the library's selection policy.

The Commission decided not to restrict the use of the book in any way; at least this was the recommendation to be made to the City Managers.

Miscellaneous work this afternoon and evening.

Saturday, February 16, 1963

47th day - 318 days follow

Spent the morning computing Federal Income Tax. Completed all calculations. Will only require finally checking and copying.

Spent the afternoon segregating and arranging by subjects the miscellaneous notes and material (not from publications) gathered since the publication of Rattlesnakes.

Went to Ralph Phillips' cocktail party tonight at the University Club for a short time; then to Scholia Club. Geo Lindsay talked on Mexico - history, politics, economy. Very good.

Sunday, February 17, 1963

48th day - 317 days follow

Guy Allen of IAS a GEEK came down today and picked up a lot of his' GEEK material, both at our home and at UPAS, St.

Got some bibliographic work done today. Also put the connections to Gg's television in tip-top shape. This was time consuming.

Monday, February 18, 1963

49th day - 316 days follow

At the office this morning.
Meeting of gas co executive committee
10 to 12; then directors until 2³⁰

Tuesday, February 19, 1963

50th day - 315 days follow

At the office for a short while this morning.

Started for Escondido at 10¹⁵ and arrived at 11. Read Battlesnakes looking for necessary changes until noon. It is quite evident, based on what I have found so far, that I will have to reread the entire book.

Went to Rotary meeting at Palomar Junes and talked to the Club on Camp "A TV Western of 65 years Ago". Took exactly 1 1/2 hour of which they gave me. I think it went OK.

Got home at 2³⁰.

San Diego Symphony Orchestra Concert tonight. Leonard Rose, Cellist soloist in the Double Cello Concerto. An enjoyable concert.

Wednesday, February 20, 1963

51st day - 314 days follow

At the office this morning.
Conference with H. E. Diller on
Commission reaction to our decision on
electric rate reduction.

Went over to the library and discussed
with Miss Breed the public and City Manager
reaction to our decision with regard to
Kazantzakes' controversial book. Also
talked over with her and the head of
the History section, my project for ordering
bibliographic material unavailable in the
San Diego area.

Tonight made a duplicate of wants
to be sent in by the S.D. Public Library
to the National Library of Medicine

Thursday, February 21, 1963

52nd day - 313 days follow

A busy day today.

Meeting of the Smog Committee this morning 9³⁰ - 11⁴⁵, the first meeting in almost a year.

Then to the Rotary Club where Allan talked on his recent trip to Europe and the Near East. He did it very well and the crowd liked it.

Went to the office and the library. At the library gave Rustig my wants from the National Medical Library. I offered to copy them on the regular forms that must be used but he said they would do this at the library which will relieve me of a lot of work.

Went to dinner at the Heights tonight.

We have Judy Schwartz from Stanford as a house guest tonight.

Friday, February 22, 1963

53rd day - 312 days follow

Washington's Birthday

Wrote a lot of letters today and did other miscellaneous work to advance the bibliography for Supplement.

Tonight went to dinner at the Coronado Hotel and then to the Annual Charity Ball. We were the hosts at the dinner; had the Holloways, Fanny Sherman, The Bradleys, and Clara Torrance.

The ball was about as usual. Alice Miller was the general chairman. Made a graceful speech and led the grand march. We got home at 12²⁰.

Saturday, February 23, 1963

54th day - 311 days follow

Spent the entire morning and part of the afternoon checking my income-tax return that had previously been calculated. Found two mistakes which made it take much longer.

Spent part of the afternoon on income tax, part on letters.

Sunday, February 24, 1963

55th day - 310 days follow

Made the last copy of income tax report. It is now ready to sign and send in.

Odds and ends of bibliographic work; made some progress

Larry and Judy Schwartz left this morning.

Monday, February 25, 1963

56th day - 309 days follow

Meeting of Solar Directors 9 AM
to Noon. Long discussions.

Went home to lunch; then down
to the office where I stayed until
2³⁰. Conference with Sherwin on
personnel matters.

Tuesday, February 26, 1963

57th day - 308 days follow

Get the office this morning. Conference with Philip on various Company matters; also with Dyke about the publication of the talk I gave at Rancho Santa Fe.

KW directors meeting this afternoon 2-3.

Some bibliographic work today.

Went to a party at the old Aztec Brewery tonight with the Burnhams and Dutherals. Special bus from the Civic Center.

Wednesday, February 27, 1963

58th day - 307 days follow

Ash Wednesday

At the office this morning.

Wrote a comment on the Udall report on Russian electrical developments.

Also a letter to Goaman on Richman.

Then returned to bibliographic work and made some progress.

Today I finished putting the primary subject (or chapter) numbers on the pink sheets.

Thursday, February 28, 1963

59th day - 306 days follow

At the office this morning -
studied the intermedius-glycydi
problem today.

Also picked the numbers of the
pictures that will fill Fowles' needs;
this took almost all afternoon.

Got quite a lot done this
evening reviewing the taxonomic
situation with respect to new or
revived subspecies to be added to
record

Friday, March 1, 1963

60th day - 305 days follow

In the basement checking specimens this morning 7-7⁴⁵.

Went over to the Natural History Museum early and straightened out a few bibliographic items.

At the office from 9¹⁰ on. Discussion with Robt F. Winkler and a Mr. Dye of the E. W. Scripps Trust about the development of the Scripps property at ~~Red~~ Muramar.

Dinner at home tonight. Invited guests: Chuck Leigh, Ed Austin, Cewins, Ned Price, Grays, Margaret Price, Oscar Cotton.

The Audubon man called up from Vista about a talk at Carlsbad at night. I declined, saying I was too old for a night meeting so far from home. They only number about 12 or 14. Said I would be willing to talk at Vista Rotary Club at noon. I think his name is Neil Woods.

Saturday, March 2, 1963

61st day - 304 days follow

Worked this morning straightening out the data boxes in the back room. Spent most of the day on edwardsi and finally decided to recognize it. An unsatisfactory conclusion, as much uncertainty remains and I am still somewhat on the fence. Its a very weak subspecies, at best.

Sunday, March 3, 1963

62nd day - 303 days follow

First Sunday of Lent

Worked hard on edwardsi today,
and finished it as far as it introduces
new or changed material.

Went to lunch with Marguerite Gruelick
and Lucy at the Marine Base, 12-2.

Monday, March 4, 1963

63rd day - 302 days follow

At the office today
Executive meeting (committee) 11 to 12;
directors 12-2. Elected Graydon Hoffman
to succeed Jim Forward.
Miscellaneous work this afternoon
and evening.

Tuesday, March 5, 1963

64th day - 301 days follow

at the office this morning
letters and other miscellaneous
clean-ups.

Monthly accounts this afternoon.

Wednesday, March 6, 1963

65th day - 300 days follow

At the office this morning.

Today I worked on the keys, particularly having in mind the key characters to differentiate amabilis and cotatinensis.
Made good progress on these items.

Thursday, March 7, 1963

66th day - 299 days follow

Fast of Esther

At the office this morning. Brief consultation with Hi and also with Sherwin.

Worked on taxonomy today -- keys, synonymies etc and made some progress. Also wrote several letters.

John Hunter of Scripps Institution, who is interested in Sea Snakes, particularly the yellow-bellied found on the tropical Pacific Coast came in this afternoon to see ~~the~~^{MA} Smith's book on the sea snakes. I also dug out some other references for him.

John Sloan came over tonight and counted Bogert's four intermediaries from Oaxaca. One of them came out very queer.

Friday, March 8, 1963

67th day - 298 days follow

At the office this morning
made progress today on both
bibliography and taxonomy, especially
gleydi. Checked and corrected Swan's
counts. Received a good picture of
Vegrandis from Venezuela today.

Saturday, March 9, 1963

68th day - 297 days follow

Made good progress today on the glycolic problem, with scale counting of the Bogert specimens and other miscellaneous items.

Dinner at Amy Jo's at La Jolla tonight. Family party as Alan Heyneman is out from New York.

Sunday, March 10, 1963

69th day - 296 days follow

Spent a lot of ^{Purification} time this morning getting all my ^{Second Sunday of Lent} data organized so I could continue with the the gloydi-intermediates problem. Its remarkable how much time can be frittered away just getting things in order ready for work.

Long discussion with Alice Miller this morning about Larry Miller's problems at Stanford.

Continued work on gloydi this afternoon. Mr. and Mrs. Wm. Patterson, their daughter Donna, and friend Roland Fisher from Anaheim called this afternoon and took a couple of hours to discuss Donna's school science problem, which is the toxicity of rattlesnake venoms.

Monday, March 11, 1963

70th day - 295 days follow

Shushan Purim

Got the office this morning.
Prepared some more tabular
material on intermediates and glycols
today.

Meeting of the Natural History Museum
Directors this afternoon, 4 to 5.

Also did a little work at the Museum
library and cleared up a couple of items.

Tuesday, March 12, 1963

71st day - 294 days follow

at the office this morning.

Made my rattlesnake talk at the S.D. Kiwanis Club this noon. They gave me about 32 minutes which was OK. I think it went over satisfactorily; quite a few came up with questions afterwards.

Today I got the Opta-View Micro Reader from Laurie Wommes. It works well with full sized 35 mm. films; not so good when split into 16 mm. The Reuss paper proved to be the right one as it contains Paracrotalus.

Got in some good ticks making a schedule of scale counts from the various recent pamphlets I had set aside. This will enable me readily to pick new mins and maxes.

On the whole a satisfactory day with something accomplished.

Wednesday, March 13, 1963

72nd day - 293 days follow

At the office for a brief time this morning. Then went out to General Atomic with a group from the Gas Co and were given lectures and plant parts of the development of High Temperature, Gas-Cooled atomic reactors as well as other projects now under way. The boys certainly know how to put on a show, interesting and attractive in every detail.

Then to lunch in their cafeteria (Shrimp boils, no less) and back to the office at about 2:30

Some one by the name of Dell Pearson called up from Los Angeles to get advice on protection against rattlers (especially protective clothing to wear) on a coming trip to Utah.

Tonight went to the dedication of the Terra Mesa Branch library.

Thursday, March 14, 1963

73rd day - 292 days follow

This morning I worked in the Public Library from 9 to 11³⁰ using one of their microfilm readers on the Reuss and Collins items. I think I have everything I need out of both, including especially Paracrotalus terrificus Reuss. Went to the office for a short time. Wrote letters this afternoon.

Friday, March 15, 1963

74th day - 291 days follow

Went to the library this morning at 8³⁵. First did a bit of research; then to a workshop get-to-gether of the Commission 9 to 10; then a regular meeting of the Commission 10 to 11⁴⁵.

Long discussion of the La Jolla situation.

Went to Ralph Phillips et al to a lunch given by Oscar Cotton at the University Club. After a good lunch Oscar gave the usual Friday talk on his early experiences in San Diego; it was entertaining and enjoyable.

Saturday, March 16, 1963

75th day - 290 days follow

Worked on intermedius - gloydi this morning, and finished all I can do, including table entries, unless I get more material.

Made a list of locality records contained in the pamphlets I had previously set aside. These will aid in checking range extensions on the maps.

Wrote several letters seeking to clear up doubtful points in these papers.

Sunday, March 17, 1963

76th day - 289 days follow

St. Patrick's Day

Third Sunday of Lent

A lot of miscellaneous work today but progress was not as good as I had hoped.

Joe Copp was here working on his reproduction project. He has nothing new to offer on cerastes either with respect to key characters or ranges. He expects to collect in Sonora and may clear up some of the uncertainties.

Monday, March 18, 1963

77th day - 288 days follow

At the office this morning,
Meeting of Executive Committee
from 10 to 12; then Directors 12 to 2³⁰

Tuesday, March 19, 1963

78th day - 287 days follow

At the office this morning.

Got through a few bibliographic chores today.

Went to Kiwanis luncheon today as a guest of Ralph Phillips; a number of Gasco people there. Bert Stuart of the National Auto Club was the speaker; one of these energetic business pep talks.

Whitney's Golden Anniversary party at Kona Kai tonight. The food was good and the chatter deafening.

Wednesday, March 20, 1963

79th day - 286 days follow

At the office this morning.

Spent a short time in conference with H. i. Dillin concerning his meeting yesterday in L.A. with the Security Analysts.

Spent much of today making out state income tax report.

Went over to the Col. Wm. Kellys for dinner at Coronado tonight.

Thursday, March 21, 1963

80th day - 285 days follow

At the office this morning.

Talk with Lynn Fox about various public relations problems. Also with Zittan about fixing a visit to General Atomic for Col. Wm Kelly of Buffalo.

Friday, March 22, 1963

81st day - 284 days follow

At the office this morning:
Miscellaneous taxonomic work and
letters today.

San Diego Symphony concert tonight.
John Browning played the Brahms piano
concerto no. 1.

Saturday, March 23, 1963

82nd day - 283 days follow

Worked all day on the changes required in the maps and made some real progress.

Sunday, March 24, 1963

83rd day - 282 days follow

Fourth Sunday of Lent

Worked hard all day on mapping and made progress. It's a slow and aggravating job because of the time-consuming difficulty of locating many of the Mexican places of collection.

Monday, March 25, 1963

84th day - 281 days follow

Meeting of the Polar Board of Directors
9 to 1145. Home to lunch and then
down to the office until 2.

Today the Natural History Museum
expedition to Angel de la Guarda returned
with 6 mites and 2 reds - a very good
series. Was encouraged to find that all
6 mites had patterned supraculars.

Tuesday, March 26, 1963

85th day - 280 days follow

At the office this morning.
Talked with Hi about some health insurance problems; also with Phil about some of his.

Received via the public library the first bunch of separates (photostats) from the National Library of Medicine in Washington, got 8 out of 14 items on this order; very good as they come without cost. Being photostats they are much easier to read than microfilms. Am very well pleased with them.

Meeting of the Zoo trustees tonight
5³⁰ to 8³⁰.

Wednesday, March 27, 1963

86th day - 279 days follow

At the office this morning.

Today I briefed, and made pink sheets where necessary for the photostated items that came from the National Library of Medicine yesterday.

Thursday, March 28, 1963

87th day - 278 days follow

At the office part of the morning.

Went on bibliographic forays to the Natural History Museum ~~at~~ and the Zoo. Not much luck; accomplishment was below par

Tonight took the kids Gracie, Larry and 2 Stanford visitors to the ~~bar~~ Chuck wagon for dinner.

Friday, March 29, 1963

88th day - 277 days follow

At the office this morning.
Went to the local medical library and
cleaned up a few items.

Saturday, March 30, 1963

89th day - 276 days follow

Worked hard on maps all day to day and made good headway. Finished everything, particularly the New Mexican localities. Only have to wait for a few specimens to examine to confirm identifications. Larry and Judy came to lunch today.

Sunday, March 31, 1963

90th day - 275 days follow

Passion Sunday

Worked all day on angelensis
both scale counts and nomenclature
and made some real progress. I have
about made up my mind to describe it.

Monday, April 1, 1963

91st day - 274 days follow

At the office this morning
Picked up a few items at the library
Sensor seems to have lost the picture of
C. d. Vegvardis that I gave them to get a print of
accounts this afternoon.

A safety man named Gordon Ellis
called up to get some snake advice

Tuesday, April 2, 1963

92nd day - 273 days follow

Get the office this morning.

Pensoas found my missing vgrandis slide, which was a great relief. It had been filed under Roze, who had sent it to me. Continued to organize the bibliographic work for angelensis.

Worked on some angelensis specimens, especially measurements.

Paid both Federal and State Income Taxes today.

Wednesday, April 3, 1963

93rd day - 272 days follow

At the office this morning.

Conference with Hi Dillin on health insurance problems; also gas rebate refunds.

Spent most of the afternoon looking over specimens of mitchelli from all areas. The angelensis character of only 6 scales in contact with the nostril looks quite encouraging^{as}.

Went to the Natural History Museum at noon to check Townsends 1911 itinerary. He mentions getting rattlers on Angel de la guarda but not on Cedros.

Bought a new Armies calypso today.

Thursday, April 4, 1963

94th day - 271 days follow

Meeting of the Library Commission
with the Taxpayers Association this
morning 9 to 11. Then to the office.

Conference with HE about public relations
matters.

Spent much of the afternoon again checking
angelensis head scales.

Friday, April 5, 1963

95th day - 270 days follow

At the office part of the morning
Library Commission meeting 10 to 11⁴⁵.
Jay and cousin ^{with us} in to dinner tonight.
Wrote a few letters.

Saturday, April 6, 1963

96th day - 269 days follow

Spent the entire morning catching up on correspondence; this incidental business takes more time than writing the paper for angelensis or arranging data for Rattlesnakes II.

Moved letters this afternoon.

This evening, went to the 22nd Annual Reunion of the Old Timers at the Dorsey Hospitality. Open only to those who lived in San Diego before 1900. TD Bertine showed pictures of San Diego homes of the Gingerbread Era.

Sunday, April 7, 1963

97th day - 268 days follow

Palm Sunday

Wrote to Russell at Cambridge.

Made progress with angelensis -
head and tail proportions, rattle,
squamation etc.

Monday, April 8, 1963

98th day - 267 days follow

At the office this morning
Cleared up several items at the library.
Carl's Radio TV fixed the down-stairs
T.V. Took the GE Radio + V.M. phonograph to
be fixed at his shop.

Tuesday, April 9, 1963

99th day - 266 days follow

At the office ^{First Day of Passover} this morning, also went to the library and picked up ~~one~~ three Outdoor life items. Couldn't locate one for which the citation was evidently in error. Also received four items from the National Library of Medicine

Wednesday, April 10, 1963

100th day - 265 days follow

At the office this morning.

Went out and got bakery stuff
for Larry at Stanford.

Joe Copp called early this afternoon.

George E. Gorman of Berkeley
called and made a date to come around
tomorrow afternoon to look over my
specimens of hichanura.

Today I made a real start on
writing up angelensis. Also spent a
part of the afternoon checking the
characteristics of the specimen selected
as the type.

Thursday, April 11, 1963

101st day - 264 days follow

Maundy Thursday

at the office this morning.

George Gorman of MVZ came in this afternoon and looked over my specimens of Lichanura. He hasn't decided yet whether he will undertake the job of monographing the genus.

Continued working on the description of angelensis and made quite a bit of progress.

Friday, April 12, 1963

102nd day - 263 days follow

Good Friday

At the office this morning.
Had a long conference with Bill
Dillin on financial and rate matters.
Continued with the angelensis write-up
and made good progress.

The 5 rattles specimens I had
requested from the University of Kansas
arrived today. These are the ones
mentioned by Dixon, Sabbath, & Worthington
that have queer scale counts.

Went to a dinnies party at the
Ed Austens tonight.

Saturday, April 13, 1963

103rd day - 262 days follow

Holy Saturday

This morning worked on the angelensis description and made progress although not nearly so much as I had hoped

In the afternoon made counts on the Dixon, Sabbath, and Worthington specimens from the University of Kansas. There were 5 specimens and I finished with them. The D, S, & W. scale counts which had set new records were all found in error ^{except one} so that only a new scutellatus ventral ♂ record was set and this only by 1.

Gleaner and Vic called this afternoon.

Sunday, April 14, 1963

104th day - 261 days follow

Lincoln's Assassination

Easter Sunday

Worked hard all day today and finished the first draft of the description of Crotalus mitchelli angelensis.

Family buffet supper tonight with the Millers and PMKS

Monday, April 15, 1963

105th day - 260 days follow

At the office this morning,
Executive Committee meeting from 10 to
noon; Board of Directors, noon until
2³⁰

Went over the angelensis paper 3
times today, making a few corrections
each time.

Got 8 more items from the
National library of medicine today.

Tuesday, April 16, 1963

106th day - 259 days follow

At the office this morning
Spent a lot of time carding,
trimming and stapling the items
received from the National Medical
Library yesterday.

Turned the angelensis paper
over to Miss Molloy for copying.

Received 3 intermediae from H M
Smith on loan. 2 are in such bad
shape they will afford no useful
data.

Wednesday, April 17, 1963

107th day - 258 days follow

at the office this morning
made good progress today on the
cataloguing of many publications recently
received

Spent a couple of hours with Dave
selecting some tools from Les's accumulation.
Made a trip up to his old house.

Carl's TV returned our two radio -
phonographs this afternoon.

Answered a long Washington letter
about a proposed Wildlife Monument
Program.

Ricky came down to talk about
college for an hour tonight.

Thursday, April 18, 1963

108th day - 257 days follow

At the office this morning.

Wrote some letters today; made records from *topeia*; also counted the specimen of *glydi* from Oaxaca lately borrowed from Hobart Smith.

Friday, April 19, 1963

109th day - 256 days follow

at the office this morning.
Conference with Phil concerning
some substation problems

Made good progress today making
summaries of the papers lately received
from the National Library of Medicine

Sloan came in this afternoon to
discuss Licanura and Phyllosynches
and other recent island material.

Went to Boston Symphony concert tonight
Erich Leinsdorf conducting; can't get
enthusiastic about Bartok, but Prokofiev
(classical) and Tchaikovsky (no. 5) were
great stuff.

Saturday, April 20, 1963

110th day - 255 days follow

Worked all day on bibliographic matters; made considerable progress. Allan K. was in for $1\frac{1}{2}$ hrs this morning to talk business.

Scholia tonight, Rantin Barnes talked on postage stamps.

Sunday, April 21, 1963

111th day - 254 days follow

Low Sunday - First Sunday after Easter

Worked hard all day on bibliographical matters and made good progress. However the recent Gennaro (in proof) and Merriam papers have given me a lot of new items to look up.

Went over Gennaro's latest paper carefully which took a lot of time.

Russell called up from Washington DC at a little before 9 and we talked for 10 minutes or more. He will stay in Cambridge until September and maybe longer; but because of changes in organization will probably not return to LA Co hospital. Some Hindu's participation in LA will be discontinued. Russell has plans that might result in his being established in SD, maybe at the Univ. of California. He has talked with Dr. Ungar about this, who will in turn talk to me. He may bring Gennaro out with him.

Monday, April 22, 1963

112th day - 253 days follow

at the office this morning.
Also at the library for a short
time.

Wrote letters; also did a lot
of carding today.

Tuesday, April 23, 1963

113th day - 252 days follow

at the office this morning.

Annual meeting of Stockholders, 10 to 11¹⁰; meeting of Board of Directors, 11⁴⁵ - 1⁴⁵

Fine Arts Society annual dinner tonight. We took 8. A little too long drawn out. Home at 10⁴⁵

Wednesday, April 24, 1963

114th day - 251 days follow

At the office this morning. Baby
eat early this afternoon.
meeting of the Zoo Trustees 5³⁰ - 8⁴⁵.

Thursday, April 25, 1963

115th day - 250 days follow

Started for Palm Springs this morning with gg. Storm threatening in the mountains so traveled by way of 395, 60, and 111. Started at 10³⁰ and arrived at 3.147 miles. Stopped at the Rusty lantern in Beaumont for lunch.

Took it easy in the afternoon at our motel El Encanto. Had dinner at a French cafe; it was quite good.

Friday, April 26, 1963

116th day - 249 days follow

Left Palm Springs this morning at 8⁴⁵. There were some sprinkles of rain. Arrived at El Centro Branch of San Diego State College at 11²⁰; 123 miles.

Met Dr. H. Ikeda, Director of the State college and Mrs. Maurine Gay, the librarian.

Went to a meeting of the El Centro Keweenaw Club at noon where I gave the Rattlesnake talk. Got the usual Service Club deal; they had promised me 40 minutes, including 5 for questions but I got a little less than 25 and couldn't make a satisfactory talk. Usual introductions and life histories of 4 new members took more than 15 minutes. And announcements. I don't exaggerate the importance of rattlesnakes, but they shouldn't promise more than they can deliver and thus ruin the speakers presentation.

In the afternoon from 2 to 4 went to an autographing party at the Libraries of San Diego State College and Imperial Valley Junior College. Signed 3 sets altogether. They had more new ones (I don't know where they got them -- but no sale. Time spent mostly chatting with visitors.

Home via Highway 80. Very windy and some sprinkles of rain. Started at 4⁴⁵; arrived at 6⁵⁰. 127 miles. Total for the trip 397 miles.

Saturday, April 27, 1963

117th day - 248 days follow

Grant's Birthday

Went down to 1st & Ivy Garage & got the Cad which was repaired while we were away.

Went to a meeting of a proposed advisory board (not yet formed) of the Salk Institute for Biological Studies. First met at Valencia Hotel, then out to the buildings now under construction on the site, which is northwest of the new U.C. Campus. We had an exceedingly interesting meeting with discussion of the plans for the Institute by Salk, Walker Ciesler and others. From 10¹⁵ at the hotel to 3³⁰ at the site.

Besides Ciesler whom I had known in EEI days, I met Don Kennedy of Oklahoma City, Pree Hatchkiss and a number of others both from in town and out of town whom I had known before. It was a decidedly worth-while affair.

Called at Phillips, on the way home, for my gas co mail.

Sunday, April 28, 1963

118th day - 247 days follow

Second Sunday after Easter

Lunch at Oscar Cottons today;
12 present

Dinner at a birthday party for A.J.
given by Alice Heyneman at the
Japanese cafe on Pacific -- Miyako's.

Monday, April 29, 1963

119th day - 246 days follow

Director's meeting at Polar this morning, 9 to 12.

at my office this afternoon 12⁴⁵ to 2¹⁵; had an hours talk with H. Dillon on the Salt Institute meeting on Saturday, and on his conference with the Public Utility Commission on the refund problem.

Tuesday, April 30, 1963

120th day - 245 days follow

Last Day for employers to file quarterly Social Security Tax Return
and Wage Report, covering three previous calendar months

At the office this morning.
better writing today with a little
bibliographic work.

John Tashjian of Oakland called
today to discuss his project for a
book or portfolio of colored pictures and
text to cover all the living reptiles of
the world. A very ambitious project.

Got the angelensis paper back from
Miss Molloy today. Gave Shaw a copy
for comments and criticisms. Also
received from him a copy of his
paper on sea snakes, also for criticism.

Dinner party at home tonight for
Goulds and PMKs.

Wednesday, May 1, 1963

121st day - 244 days follow

At the office this morning.

Discussion with Dillin concerning a variety of policy matters.

Read Shaw's Sea-Snake paper and made some suggestions.

Turned in the angelensis paper to Dr. Lindsay.

A Dr. Flower USA called up from some army post in Kentucky and discussed various data lately secured on atrox venom, particularly the high solid content of venom removed from rattlers just out of hibernation. He will send me data and photographs. Some of his material sounds very interesting.

Thursday, May 2, 1963

122nd day - 243 days follow

At the office this morning.

Went to medical library for $1\frac{1}{2}$ hrs and
cleaned up several items.

Accounts this afternoon.

Ray Cowles came in for a very
brief visit at 6 tonight.

Caught up on card filing tonight.

Friday, May 3, 1963

123rd day - 242 days follow

At the office this morning;
meeting in His office 9³⁰ until noon.

Saturday, May 4, 1963

124th day - 241 days follow

Today I worked on the closely related problems of maps, tables of geographical distribution, and synonymies, and made some real progress.

Got two new and important papers from Parrish. Also an inquiry from the National Institutes of Health concerning Carl Gans' request for a research grant for a study of "The Functional Morphology of the Viperid Feeding Mechanism". This will be a time-consuming job to answer.

Continued with mapping all day and evening, and as far as I know all the maps have been corrected for Second. Could proceed to have all changes made, but of course I have no idea what new specimens might come to hand and require further changes. So this will have to be delayed until last minute for it would never do to have the maps changed twice, a formidable job in any case.

Sunday, May 5, 1963

125th day - 240 days follow

Third Sunday after Easter

Got up this morning at 3 and worked for more than an hour on the map - tables - synonymy problems.

Finished the necessary changes in Tables 2:1 to 2:6 inclusive (the geographical range tables) except an overhaul of the footnotes.

Monday, May 6, 1963

126th day - 239 days follow

At the office this morning.

Got my new dark-blue suit from Nelson Modae.

Went to the Public library and cleaned up the Dreisbach: Handbook of Poisons. A good piece of work.

A Richard Brooks of Columbia Pictures called from Hollywood this morning; I missed him but talked to his secretary Miss McDowell. He is going visiting on location in southeast Asia and wanted to know all about snake bite and the snakes that will be found there. Promised to send him some references. No Hollywood 2-3111.

The fire chief of Rancho Santa Fe called to say someone had been bitten by a small hellie yesterday afternoon or evening. Now in Scripps Hospital and doing OK. He had heard me talk at Rotary and wanted to know if the correct first-aid measures had been used.

Geo. Lindsay came in to talk over the Angelensis paper; also various Museum problems and affairs.

Dinner for 14 at honors Forwards tonight. Didn't sit down until 8³⁰; home at 11³⁰.

Tuesday, May 7, 1963

127th day - 238 days follow

At the office this morning.

Finished the letter and bibliography
for Richard Brooks; and the report to
the National Institutes of Health on Carl
gans' project and turned them over to
Miss Molloy,

Wednesday, May 8, 1963

128th day - 237 days follow

At the office for a short time this morning. left for Vista at 10³⁰ and talked to the Vista Rotary Club on Rattlesnake. It went pretty good; they gave me a full 30 minutes.

Went out via Carlebad; home by way of Escondido. got home at 3⁰⁰

Thursday, May 9, 1963

129th day - 236 days follow

at the office this morning.

Went over diary today looking for historical data on collecting trips.

Ann Hambersten and her niece in for dinner tonight.

Friday, May 10, 1963

130th day - 235 days follow

At the office this morning.

Got bakery goods for the kids.

Tonight went to a meeting of the Research Council. Ralph Quinter of San Fernando State College talked about color vision in animals -- mostly way over my head. The final conclusion seemed to be that mammals, except primates, are color blind, as I always assumed to be the case.

Chuck Shaw gave a good illustrated talk on the Zoo's reptile collection.

Saturday, May 11, 1963

131st day - 234 days follow

Worked today on changes in Chapter 2. Corrected map legends, checked vernacular names, and made a good start on the changes and corrections needed in the synonymies. This is a very involved job, especially for one who has lost his memory. Anyway made good progress -- got down to viridis.

Sunday, May 12, 1963

132nd day - 233 days follow

Mother's Day

Fourth Sunday after Easter

Continued today on the Check list (pp. 27-51) and finished the changes and additions as known today, with the exception of a few loose odds and ends still to be checked; this was a major job, very intricate.

Went to Philip's for a Mother's Day Dinner tonight.

Monday, May 13, 1963

133rd day - 232 days follow

At the office this morning.
Went to the Natural History Museum
at 2³⁰ and cleaned a couple of items in
the library before going to a Directors meeting
that lasted from 4⁰⁰ to 5³⁰.

A Historical Note: Heard from Benny
Banta today and he gave me dates from
the Coal Acad accession books.

The date when I went out with Van
Denburgh and Alvon and picked up the
ring neck in the Ballena Grade near Witch
Creek was May 9, 1923; and the date
when we went to Mountain Springs and
they (not I) discovered the rock-slab
method of catching Xantusia henshawi was
May 13, 1923.

Tuesday, May 14, 1963

134th day - 231 days follow

Get the office this morning.

Spent an hour at the County Medical

Library today and cleared up all the items
to be worked on there.

Wednesday, May 15, 1963

135th day - 230 days follow

Got the office this morning
Betsy sat this afternoon.
A little bibliographic work, but a lot
of lost time.

Put in an order at the library for another
lot of prints from the National Library of Medicine.

Thursday, May 16, 1963

136th day - 229 days follow

At the office this morning.

At noon went to a lunch meeting of the Library Commission with the probate section of the local bar association to discuss possible library gifts and bequests. The meeting lasted until 1:40. I hope it will produce results.

Worked on several bibliographic problems today and did quite well.

Received a good two-headed, preserved Sistrurus catenatus from Gary Kuehn, St. Paul, today. Also some xerox sheets from Jennings to be used in making changes for Record Printing.

Friday, May 17, 1963

137th day - 228 days follow

At the office this morning.
Wrote a bunch of letters today.

Saturday, May 18, 1963

138th day - 227 days follow

Armed Forces Day

Worked today on changes in the lists and synonymies and finished the required changes.

Meeting of Scholastic tonight; City Manager Tom Fletcher discussed Decision Making. One of the most provocative meetings we have had in a long time.

Sunday, May 19, 1963

139th day - 226 days follow

Got started overhauling the keys today, using the large sheets Jennings had sent me wherein to enter the changes. Made good progress (about half way through Mexico) until Russ Fox and Marguerite Gruelick called and then all keys were off for the day. Too bad, as I had a lot of reference material laid out, and this had to be put away.

Went to a dinner party given by the Milton Hellers at the new San Diego Yacht Club; then to his home for a bull session.

Monday, May 20, 1963

140th day - 225 days follow

At the office this morning.
Meeting of Executive Committee 9³⁰ to
Noon; Directors, Noon to 3¹⁵

Tuesday, May 21, 1963

141st day - 224 days follow

At the office this morning.
Today I finished the first
overhauling of the keys; this is
certainly a highly technical job. I
wonder if anyone ever uses these keys.

Wednesday, May 22, 1963

142nd day - 223 days follow

At the office this morning.
Conference with Hi Dillin for nearly
an hour on corporate matters.

Went out to College Grove Shopping Center.
Worked some more on the Keys today
and made further improvements.

Chuck Shaw brought in a New
Zealand herpetologist Miss ^{Joan} Robb, this
evening. She is over here for 10 months
to study Typhlops.

Joe Cope came in this evening to
talk over his several projects.

Received a telegram from Welimovsky
at Vancouver inviting me to preside
at one of the ASIH meetings. Would
regrets

Thursday, May 23, 1963

143rd day - 222 days follow

Ascension Day

Meeting of the Advisory Committee of the San Diego County Air Pollution Control District this morning 9³⁰ to 11²⁰; then to the office for a brief time.

At noon meeting of the Pension Committee of the Zoo from 12²⁰ to 1²⁰.

At home found George Lindsay and Edw. Huffman waiting for me to talk over Natural History Society problems. They stayed until 2²⁰.

Friday, May 24, 1963

144th day - 221 days follow

At the office this morning.
Conference with Diller on Commission
business.

Wrote a long letter to Miss Ellen
Stekert on Southern Snake Handling
Cults.

Saturday, May 25, 1963

145th day - 220 days follow

Some work on letters today, particularly the Stekert letter; also on the keys, synonymies, etc. in Chapter 2. Chapter 2 is now nearly finished as far as additions and corrections are concerned.

This afternoon went to a sort of exhibit and reception at the University of California at La Jolla for San Diego authors. This took most of the afternoon. Tonight Dietle and her son came to dinner.

Sunday, May 26, 1963

146th day - 219 days follow

This was a day on which I spent a lot of time programing; that is listing the work already done determining the need for Xerox sheets, and laying out future activities.

Monday, May 27, 1963

147th day - 218 days follow

Meeting of Polar Directors this morning. I got there late as I had forgotten we started at 9 instead of 9³⁰. After the meeting, we inspected the Laurel Street property where superchargers will be manufactured. Then took lunch at Herbach's. Harry Bercher was out for this meeting.

Then to the office for a brief time. Home at 12²⁰.

Tuesday, May 28, 1963

148th day - 217 days follow

At the office this morning. Spent $1\frac{1}{2}$ hours in H's office discussing Commission matters. Rest of the time preparing for Kew meeting this afternoon.

Meeting of Kew stockholders followed by directors meeting 2 to 3³⁰. Made the usual talk on business conditions in San Diego.

A long meeting of the Zoo Trustees tonight 5³⁰ to 9⁴⁵.

Wednesday, May 29, 1963

149th day - 216 days follow

First Day of Pentecost (Jewish)

At the office this morning.
Conference with H. Dillin on several
matters.

Wrote letters today and other clean-up
work.

Thursday, May 30, 1963

150th day - 215 days follow

Memorial Day

Worked hard all day on the Scale Count Table (Table 2:7) and made all changes in accordance with all newly available specimens and all published data.

Friday, May 31, 1963

151st day - 214 days follow

At the office this morning.
Worked today on morphological
tables after 2:7; made only fair
progress.

Saturday, June 1, 1963

152nd day - 213 days follow

Today I worked hard -- that is, hard for me -- and finished with the changes and additions to the morphological tables 4:1, 4:2, 4:3, 5:6, and 11:1. There will be no more changes in these unless new specimens of inadequately represented subspecies come to hand.

Sunday, June 2, 1963

153rd day - 212 days follow

Whitsunday - Pentecost (Christian)

Today I checked over the tables again looking for omissions.

Went up to Kess and Philip's this morning for a short time. Gary came in at noon.

George Lindsay came in for a long conference this afternoon.

Monday, June 3, 1963

154th day - 211 days follow

At the office this morning. Miss Breed came over for a conference on library matters particularly a controversy with the City's personnel department on the job specifications for librarians.

Went to an Gardvark lunch at the Zoo today. The lunch was excellent and so was the speaker: Dr. Phyllis Jay on The Female Primate.

Roy McDermott* of USC came in this afternoon to see about working over our southern Sonora and northern Sinaloa material. He only made preliminary arrangements -- will actually start work later.

Today I received an invitation to participate in a new publication project entitled "Active Venomous Animals and their Venoms" -- a 2 or 3 volume work. My part would be Zoological Classification, Distribution and Biology of the Venomous Snakes of Canada, U.S. & Mexico, 30 to 40 printed pages @ 430 words per page. Will think it over.

*McDiarmid

Tuesday, June 4, 1963

155th day - 210 days follow

At the office this morning.
Conference with Joe Sennott re
backbone transmission line's in
California

Miscellaneous letters and odds and
ends.

Wednesday, June 5, 1963

156th day - 209 days follow

At the office this morning.

Letters and other miscellaneous items Marian Peckham came in for a brief discussion of some real estate problems.

In the afternoon Cateley Shields, 5151 Alzada Drive, La Mesa, and Don Watts, 436 Wakefield Ct, El Cajon came in for a visit. They had a live ringneck from Providence Mountains, San Bernardino Co., where as far as the records go no ringneck had previously been taken. Interesting creature; no ring in evidence; only the lowest lateral row on each side has the ventral orange color.

Thursday, June 6, 1963

157th day - 208 days follow

At the office this morning.

Lots of excitement today: Kennedy in town and we got a new GE refrigerator - freezer.

Received two items from the National Library of Medicine

Accounts figured this afternoon.

Friday, June 7, 1963

158th day - 207 days follow

Meeting of the Finance Committee
of the Zoo in Andy Borthwicks office
this morning 8³⁰ - 10⁴⁵. Then to the
office.

Bill Lynch called up from Chicago
to say his mother had died this morning.

Saturday, June 8, 1963

159th day - 206 days follow

Rechecked the VSC tigris No 101 from Sonora. It is not as peculiar as at first thought; there is a confusing tear in the body.

The Xerox prints ordered from V.C. Press arrived this morning, just in time for my needs. Also a couple of photostats from Mrs. Majerus.

C J Hoyt of La Mesa called up this afternoon said his boy 11 years old may have been bitten by a rattlesnake. Didn't sound like it -- no symptoms after an hour. Told him to watch him closely for sudden ~~of~~ onset of symptoms.

Sunday, June 9, 1963

160th day - 205 days follow

Trinity Sunday

Worked transferring records to the new Xerox sheets received yesterday; this is now virtually completed.

Had the trots today; not feeling very spry.

Monday, June 10, 1963

161st day - 204 days follow

Almost had an accident this morning, but fortunately there was none. I was at 6th & Jumper at about 8³⁰. I had stopped at this corner and was preparing to turn south. Several cars passed going south; I was waiting for the last one to pass. When it had gone by, I started my car slowly and was preparing to turn south. Meanwhile a man had out passed a car that was parked at the curb. I didn't see him as my eyes were looking right. He jumped out from in front of my car. He wasn't touched but he was awful mad. Said I should have my eyes examined. Demanded to see my driver's license which I finally showed him. I don't think my bumper came within a foot of him. There was a gardener working in the parking strip.

At the office this morning.
Wrote some letters.

Meeting of directors Natural History
Museum, 4 to 5¹⁵
Toto continued; not much pep

Tuesday, June 11, 1963

162nd day - 203 days follow

Small but readily perceptible earthquake this morning.

At the library 9²⁰ to 9⁵⁰ to discuss with Miss Breed our argument with Civil Service; we don't like their recommendations.

Spent the rest of the morning at the office.

Got 4 good items from the National Library of Medicine this morning; not many more coming from that source. Still feeling below par today; intestinal upset of some kind.

Got some bibliographic work done this afternoon.

Got word that her died this afternoon between 5-6 at the Lemon Grove home for the elderly.

Wednesday, June 12, 1963

163rd day - 202 days follow

At the office this morning. got some routine but time consuming bibliographic work done today. No pep.

Thursday, June 13, 1963

164th day - 201 days follow

Corpus Christi

At the office this morning. A long talk with Joe Sinnott about regulatory conditions in Washington and the PVC.

Otherwise wrote letters etc.

Still no pep. today; I must have been sicker than I thought.

Friday, June 14, 1963

165th day - 200 days follow

Flag Day

At the office for a while this morning. Conference with Hi Dillin about his recent attendance at a utility convention and a conference meeting of the library commission 10 to 11:35 AM.

Les's funeral was held this afternoon at Cypress View at 2:00. We all went out in one of the funeral directors cars, 1:30 to 2:45. The service was very well-conducted.

Saturday, June 15, 1963

166th day - 199 days follow

letters and other chores. Packed
for shipment and return the specimens
borrowed from U. Kansas and U. Illinois.

Sunday, June 16, 1963

167th day - 198 days follow

Father's Day

Today mailed the packages to the Universities of Kansas and Illinois. A long discussion this morning with Jay about Leslie's affairs and stuff.

Went down to the office this morning. Drafted a proposed library communication to the probate attorneys.

Pretty much of a lost weekend,

Monday, June 17, 1963

168th day - 197 days follow

at the office this morning.
Meeting of Executive Committee 10-12¹⁵;
Board of Directors 12¹⁵ to 3 PM.

Tuesday, June 18, 1963

169th day - 196 days follow

At the office this morning.

Had a conference with Moran about the angelensis paper; many of his criticisms seemed to me to over technical and involved no improvement in the text.

John Sloan came over from the Museum this afternoon and we discussed various aspects of the herp department. He took over to the Museum most of the jars and caps which I had stocked, which was what I desired. Curtis Crockett of State College was with Sloan.

Wednesday, June 19, 1963

170th day - 195 days follow

at the office this morning.
Spent the time today trying to
make the angelensis paper conform to
Morans recommendations.

Thursday, June 20, 1963

171st day - 194 days follow

At the office this morning
Today I began a systematic rereading
of Rattlesnakes looking for changes that
should be made in the text or reported
in the Supplement. I have already
completed chapter 2, which is the most
difficult of all.

Returned the angelensis paper to
Moran with my comments on his
suggested changes.

Met with Chuck Shaw at lunch
today for a discussion of a number
of matters. -- a very useful meeting.
Discussed among other matters his
participation in the Academic Press project
(he is willing), Dixon's recent visit, several
new books, the importance of following the
ASIH recommendations on common names
(he thinks I should make my own decisions
as far as rattlers are concerned), and other
items. A satisfactory conference for
clarification.

Turned my Sea Water Conversion file
of literature over to Titlau.

Friday, June 21, 1963

172nd day - 193 days follow

Feast of Sacred Heart

At the office this morning.
A poor night's rest last night so
didn't do too well today.

Got some letters written.

Went over Chuck Shaw's recent
acquisition of separates and found a
few that should be included in the
Bibliography of Second Printing. These
I borrowed.

Jay, Blaney, and a guest came to
dinner tonight.

Saturday, June 22, 1963

173rd day - 192 days follow

Another day given over largely to clearing up. Wrote a lot of letters. Went down to the office in the afternoon and straightened all my stuff in my new office next to the reception room.

Did a lot of separate and pamphlet rearranging which was hard physical work.

Sunday, June 23, 1963

174th day - 191 days follow

Spent a lot of time, beginning at 4 AM, going over past correspondence with UC Press to refresh my memory on our agreements with respect to contents of Supplement and changes in text.

Another day of miscellaneous cleanup work and baby sitting. Some filing and carding.

Monday, June 24, 1963

175th day - 190 days follow

Meeting of Polar Board this morning from 9 to 10¹⁵; then a tour of parts of the plant until 11. Then to the office until just before noon.

Cleand up miscellaneous items this afternoon - letters, filing, etc.

Tuesday, June 25, 1963

176th day - 189 days follow

At the office until 9⁴⁵ this morning. Then to the library for a Workshop Meeting of the Commission to discuss various personnel problems. This lasted until noon.

Bates had a discussion with H. Dillin concerning Public Utility Commission matters.

Meeting of Trustees of the Zoo tonight 5³⁰ - 8³⁰. Some lively discussions.

Wednesday, June 26, 1963

177th day - 188 days follow

At the office this morning.
Expected to get a lot done today
but didn't, although I did write
several long letters.

Took the 3 Miller Kids to the Chuck
Wagon tonight.

Thursday, June 27, 1963

178th day - 187 days follow

Sick with the trots last night and not feeling too hot this morning.

Went to the office this morning.

Got a few letters written and some other chores.

Went to Rotary this noon; one of these presidential terminations.

Postponed my dental appointment.

Oscar Cottons for dinner tonight; party of 12.

Friday, June 28, 1963

179th day - 186 days follow

At the office part of the morning
Still feeling poorly last night and
today.

Meeting of the Library Commission
with Lew Fay and Mrs. Waite of the
Civil Service Commission and Kimball
Moore of the Manager's office to see
if we could settle some personnel
problems. Think we made progress. This
was 10 to 12. Then back to the office
for a short while.

Saturday, June 29, 1963

180th day - 185 days follow

Intestinal trouble continues. Not
uncomfortable, but tired, dopey, and
without pep. Nothing done but a couple
of letters.

Sunday, June 30, 1963

181st day - 184 days follow

Feeling better today; not uncomfortable but no pep at all. Nothing done. Went to a lunch for about 24 at Fanny Sherman's.

Monday, July 1, 1963

182nd day - 183 days follow

at the office this morning
accounts this afternoon
Margaret Bancroft and Muckle
called this afternoon.

Tuesday, July 2, 1963

183rd day - 182 days follow

At the office this morning.

Went over to the library and got another photostat from the National library of Medicine. This may be the last one on order.

Got started again overhauling the Introduction in First. I have been stuck on a dead center for several weeks. Didn't get far when George Lindsay came in with the revised copy of the angelensis paper. So I went over this once more.

A bank called up this noon to have me verbally endorse a check for Edward H Taylor, which I was glad enough to do. But I was too slow in the head to find out where he is staying. I hope he looks me up.

Went over the Pliny talk this afternoon preparing it for copying by Janet.

Wednesday, July 3, 1963

184th day - 181 days follow

At the office this morning.

Conference with Hi Dillin on franchise matters.

Took the corrected angelensis paper to George Lindsay at the Natural History Museum.

Worked on corrections for Chap. I Status today and made some progress.

Conference with Phil on his trip to Idaho.

Thursday, July 4, 1963

185th day - 180 days follow

Independence Day

got off the dead center today
and made progress. However considerable
time was taken in calls by Philip
and Arney Carter
Mullers came to dinner tonight.

Friday, July 5, 1963

186th day - 179 days follow

At the office this morning. Had
a talk with H. Dillin about franchises.
Got some work done today on Status,
Chapter 1, especially the back-fanged snakes.

Saturday, July 6, 1963

187th day - 178 days follow

Got in some fairly good luck today. Almost completed the overhauling of Chapters 1 and 3 (2 is already finished). Wrote some letters. But I tire easily, or imagine that I do, which greatly reduces my output.

Philip called this morning to say good bye before leaving for Moscow, Idaho. Turned the Pliny paper over to Janet for copying.

Wrote a couple of long letters.

Sunday, July 7, 1963

188th day - 177 days follow

A couple of letters written today; otherwise a day without progress.

at 1⁴⁵ went out to Corte Madera and had a very pleasant lunch with the Guilford Whitneys. We took Jessie Matthews along. Very pleasant and warm out there but plenty of traffic on the roads. Started at 12⁴⁵; returned 6 to 7³⁰, gg drove out and I back.

Monday, July 8, 1963

189th day - 176 days follow

Went out to Les's this morning and opened up so the could load the safe on a truck.

Then down to the office. got through some miscellaneous work.

Then to the lock company where they opened the safe. nothing in it but junk.

Natural History Museum Directors 4-5¹⁰

Spent some time this evening selecting specimens for to morrow's talk.

Tuesday, July 9, 1963

190th day - 175 days follow

Went out to the Children's Home on Linda Vista Mesa and talked to a group of children on snakes. They were interested and asked many questions.

Got to the office at 11. Had a talk with Hi Dillin on P.V.C. matters until after 12.

Spent part of the afternoon putting away the specimens I had taken out to show the kids at the Children's Home.

Wednesday, July 10, 1963

191st day - 174 days follow

At the office this morning until 10⁴⁵. Conference with Hi Dillin about PUC matters.

Then to the SDC's medical library where I cleaned up several items.

Today I briefed Alaffenberg's important papers on paleontology of the rattlers.

Out to a late (8 o'clock) supper at Amy Jo's tonight. Donnie + Barbara, and the Copps were there. Didn't get home until after 12-.

Thursday, July 11, 1963

192nd day - 173 days follow

At the office this morning. Had a talk on organizational matters with Sinnott.

Went to the dentist: in the chair from 10³⁰ to 11¹⁵; one cavity filled; teeth cleaned.

Friday, July 12, 1963

193rd day - 172 days follow

At the office part of the morning conference with Sherwin on Company business.

Library Commission meeting, 10 to 11:35

Took the PMK family to the Chuck Wagon tonight.

Had trouble with the transmission on the Cad today. They wanted about \$140⁰⁰ to fix it so I decided to trade it in on a new Chev. Got a temporary repair for about \$9⁰⁰

Saturday, July 13, 1963

194th day - 171 days follow

Worked repairing the window shades in my room this morning.

Spent a lot of time thinking over the most efficient way in which to assemble the notes accumulated on the pink sheets covering the new bibliographic material.

Tried out Chapter 3 to see how the new material might be handled. Have to feel my way along slowly until the system becomes properly organized and developed.

Clara Torrance, Cecil Badgley, Miriam Barney and Julia Spinning came to dinner tonight.

Sunday, July 14, 1963

195th day - 170 days follow

Today was almost a total loss, although I did make some headway with the handling of Chapter 3 as a sample of all chapters after Chapter 2. A general method was devised.

Jay called in the morning and Larry in the afternoon.

Tonight went to the Cinema "How the West was Won" with the Miller family. It was very exciting.

Monday, July 15, 1963

196th day - 169 days follow

At the office this morning.

Important meeting of the Executive Committee, 10 to Noon; then Directors, noon to 3¹⁵.

Tuesday, July 16, 1963

197th day - 168 days follow

At the office this morning
Discussion with H. Dillin on personnel
problems

Talked to Walter Folcke about a new
Chevrolet.

Boy from Natural History Museum
borrows snake-bite fatality data. Chris Parrish

Did considerable carding for the separate
catalogue.

Tonight went to dinner at House
of Hospitality with the Bonds -- a party
of 12; then to the San Diego Symphony
Orchestra -- Andre Kostelanetz conducting.

Wednesday, July 17, 1963

198th day - 167 days follow

At the office this morning, but got there late (10⁰⁰) as I stopped for gas and found I had a broken hose connection at the radiator which took a long time to change. lucky it was found as the engine might have been damaged: the radiator was completely dry. Latest miles/gal = $148/17.0 = 8.7$.

Herb Kunzel came in this morning to discuss polar matters.

Received 2 important preprints from Parrish.

Went to the Art Johnson's party at the Zoo tonight -- dinner and bus ride 5⁴⁵ to 8⁴⁵. Very tasty.

Thursday, July 18, 1963

199th day - 166 days follow

At the office this morning.
Wrote a lot of letters.

A large dinner party at the
Ed Austin's tonight, 6-10.

Friday, July 19, 1963

200th day - 165 days follow

at the office this morning.

Conferences with Sinnott and Zittlau about the PUC's hearing on the San Onofre plant; and with Hi Dillin on the gas rebate.

Wrote letters; also briefed several newly acquired items on venoms.

Tonight went to a dinner meeting of the West Coast Section of the Air Pollution Control Association at Vacation Village. The talks were: "The Role of the Atmosphere in Limiting Visibility" by Dr. S. Q. Duntley, Director, Visibility Laboratory, Scripps Institution of Oceanography; and "Air Pollution Damage to Vegetation" by Dr. Dudley A. Preston, Associate Professor of Botany, San Diego State College. I didn't get much out of either one. Got home at 10³⁰.

Saturday, July 20, 1963

201st day - 164 days follow

Still fumbling around trying to find the best way to organize the changes to be incorporated in Supplement derived either from new bibliographic references or from other sources. This is a difficult problem that I have not yet ~~at~~ solved and that has virtually stymied me for a month.

Family in for dinner tonight.

Sunday, July 21, 1963

202nd day - 163 days follow

Got in some good lucks today, particularly setting up what I have already finished so that it could be readily located for my memory is now so bad I can't remember what I have finished and so am likely to do a job twice. But I didn't do much on the major problem of organizing a system whereby the new items from references are incorporated either in the Supplement or directly in the text.

Monday, July 22, 1963

203rd day - 162 days follow

Meeting of Solar Board this morning from 9 to 12¹⁵; much time in executive session discussing corporate future. Then to lunch at Hubach's.

At Gas Co office from 2 to 2³⁰. Called Walter Folcke about new Chev. car. Told him I would probably wait for a '64 model.

listened to the short history-Patterson fight tonight.

Tuesday, July 23, 1963

204th day - 161 days follow

At the office this morning.
Meeting with Dillin and Sherwin on
PUC matters 9:30 to 12:15

A long directors meeting of the
San Diego Zoo 5 to 9:15 including an
inspection of the new research facilities.
Some rather hectic discussions.

Wednesday, July 24, 1963

205th day - 160 days follow

At the office this morning.
more discussions re PVC matters, also
overhauling letters.

Thursday, July 25, 1963

206th day - 159 days follow

At the office this morning. Max
conferences with Hi Dillin on PJC
matters.

General gardes brought up some
Solar papers to look over this afternoon.

Friday, July 26, 1963

207th day - 158 days follow

at the office this morning.

Worked on Chapter 3 revision today.

Also worked on the Wednesday Club
talk problem -- the talk scheduled for
Dec. 11.

Saturday, July 27, 1963

208th day - 157 days follow

Worked on Chapter 3 and made good headway. Started a new method of making changes, and wording the material in Supplement. If it works, and I think it will, I may be past the dead center, on which I have been stuck so long. If I ever get to a point where it's a pleasure to work, the progress may be more rapid.

Went to hear Knerr's dinner at Del Charro, La Jolla, 7-10³⁰. Got home at 11. For Gas Co executives; there were 20 present. A very good dinner.

Sunday, July 28, 1963

209th day - 156 days follow

Worked on Chapter 3 today and made good progress, completing the first draft of what is presumed to go in the Supplement.

Fixed the piano leg and turned off the furnace pilots today.

Monday, July 29, 1963

210th day - 155 days follow

At the office this morning.

Marian Peckham came in and we had a long conference about some of her tax problems.

Made more headway today on Chapter 3.

Tuesday, July 30, 1963

211th day - 154 days follow

At the office this morning. Reviewed a paper by Kneer.

Worked on Chapter 3.

Repaired vacuum cleaner.

Sent in order to L.A. for fall opera tickets.

Got a long paper by Kochva from Nat. Library of Medicine.

San Diego Symphony Concert tonight at the Bowl. horn Hollander, pianist, played the Tchaikovsky Concerto No 1.

Wednesday, July 31, 1963

212th day - 153 days follow

Last Day for employers to file quarterly Social Security Tax Return
and Wage Report, covering three previous calendar months

At the office this morning.

Wrote letters today.

Went out to Allan's for a fish
dinner at Del Mar tonight. Took Janet,
Bet, and A-J. got home at 11.

Thursday, August 1, 1963

213th day - 152 days follow

At the office this morning
called on Guilford Whitney this
afternoon.

Finally got Xerox copies of pp. 1-24
from the Press today.

Friday, August 2, 1963

214th day - 151 days follow

At the office this morning
Worked on rearranging by Subject,
the decisions made at two conferences
with the University Press,

Kenneth Asplund of University
of Arizona came around today to work
on Uta, Dipsosaurus and other lizards.

Monthly accounts figured today.
Asplund decided to work all
night in the basement.

Watched the Green Bay Packers vs
College All-star football game tonight.

Asplund worked all night and
continued Saturday morning.

Saturday, August 3, 1963

215th day - 150 days follow

Asplund worked this morning until nearly noon. Then took him over to the Natural History Museum.

Meanwhile I finished up a lot of miscellaneous cleanups.

Finished the Chapter 3 section for the Supplement, ready for copying.

Sunday, August 4, 1963

216th day - 149 days follow

Jay called this morning.

Worked all day on the revision of Chapter 4 and made good progress. Was encouraged to find that the changes required in the text, and the additions in the supplement, were fewer than in the earlier chapters, so maybe it will go faster from now on.

Monday, August 5, 1963

217th day - 148 days follow

At the office this morning.
Made some progress with Chapter 4
Wrote two letters.

Took Janet to the bus at the
park, bound for the Girl Scout Camp
at Julian.

Tuesday, August 6, 1963

218th day - 147 days follow

At the office this morning
Worked on Chapter 4 today.

Wrote Jennings asking for the
Xerox prints needed for Chapters 3 and 4
Got and accounting today from the
UC Press.; sales for the period Jan 1, 1963
to June 30 1963 were 84 sets.

According to my probably imperfect
records 2715 sets have been sold. 300 were
supposed to have been given away, which is
probably in error. Anyway the Zoo and I
got 50 sets. There can't be many left.

Wednesday, August 7, 1963

219th day - 146 days follow

At the office this morning.

Discussed a steam-system problem with H. Dillin.

Attended an Economic Research Bureau meeting at the Chamber of Commerce, 10 to 11 40.

A sprinkle of rain this morning.

Went to Rogan buffet supper party at Coronado 5¹⁵ - 8¹⁰. A lot of old friendly faces, whom I didn't know.

Thursday, August 8, 1963

220th day - 145 days follow

At the office this morning.
Conference with H. J. Tullin on a number
of matters.

A Mr. Barrett formerly of Winterhaven
but now of San Diego called to talk over
some plans to photograph animals at the Zoo.

Wrote a number of letters today.

Received the Xerox sheets from the Press
(chapters 3 and 4) ordered last Friday.

Friday, August 9, 1963

221st day - 144 days follow

At the office this morning.

Today I got methods and procedures lined up in better shape for producing and having available for reference the two parts of a manuscript for Second!

1) Changes in First to produce the body of Second

2) The manuscript for the Supplement.

This sounds simple but thus far it has been very complicated to line up the changes and keep track of what's been finished. Also to keep the finished parts available for references. Maybe at last I'm really on my way.

Got the galley proof of the angelensis paper from the Natural History Museum today.

Worked in the basement this afternoon sorting out rattlers that had been lying around for a long time.

Saturday, August 10, 1963

222nd day - 143 days follow

Spent the morning and part of the afternoon scale-counting. Cleaned up the basiliscus that have been lying around; also the gloydii from CAS. These small snakes are quite a problem for me as it is difficult for me to see the scales for counting.

This afternoon I started going over chapter 5: the rattle, looking for necessary changes.

Aug 11, continued

Philip and Laurie Katherine called this evening to discuss their recent trip to the Northwest.

Worked long and hard on hybrids tonight.

Sunday, August 11, 1963

223rd day - 142 days follow

Worked early this morning on the data for the hybrid rattlesnakes. This is going to require more checking than I had supposed.

Also some work on the hemipenes of angelensis. I doubt whether it will be advisable to mention these in the angelensis paper, the galley proof of which must be returned to the museum next week.

Went over to Cottons at 11¹⁵ for a buffet lunch and a piano recital by Bill Barber. Very enjoyable. Returned via the Park where Gg was dropped for a Globe Theatre production, at 2³⁰.

A party by the name of Folsom with a snake show at Hermosa Beach called up to tell me of some unusual rattlers he had including what he thinks is a stephensi-scutellatus hybrid from west of the Panamints (it is almost colorless); a fresh viridis or lutesus with a queer pattern; a tyabcan from Ute Canyon; an edwardsi from New Mexico. He said he might bring them down in a couple of weeks, or a UCLA parasitologist would, for photographing. He said he would let me or Chuck Shaw know if he came so we could alert the photographers. He is going to Arizona next week.

[See Aug 10]

Monday, August 12, 1963

224th day - 141 days follow

At the office this morning.
Today wrote Preface to Second

Printing

Went to Phil Swings funeral at
2 this afternoon. Was an honorary
pall-bearer.

Went out to Amy Jo's for supper
this evening to meet with the Alan
Heynemans. Talked libraries.
Home at 10³⁰.

Tuesday, August 13, 1963

225th day - 140 days follow

At the office this morning.

A little work on the preface today

At Natural History Museum 3³⁰ - 4³⁰

Cleaned up a few bibliographic items;
also meeting of the directors.

Wednesday, August 14, 1963

226th day - 139 days follow

At the office for a short time this morning; at 9⁴⁵ went to a meeting of the California Motor Vehicle Pollution Control Board at which Askeu presided. Stayed until 12³⁰.

Then home. Sloan and Curtis brought over a few specimens from the Museum and took a lot back. The place is now fairly well cleared up.

In the late afternoon attended a meeting of the Southern California Coordinating Council on Air Pollution at King's Inn, Mission Valley 5 to 7. Didn't stay for the dinner.

Thursday, August 15, 1963

227th day - 138 days follow

Assumption of Blessed Virgin Mary

At the office this morning.

Wrote a number of letters.

Dinner party at the Lloyd Gray's
tonight. Some guests failed to show up
so there was a long wait before we ate.

Friday, August 16, 1963

228th day - 137 days follow

At the office this morning.
long conference with Hi Dillin
on the gas refund and other matters.
Finished reading Chapter 5 for
changes and additions; also bibliographic
work

Saturday, August 17, 1963

229th day - 136 days follow

Got involved in a plumbing repair job that required almost all morning including a trip to Sears Roebuck.

Otherwise only a little straightening out of material and some letters.

At 4:30 went to the Peckham-Torrence party aboard the Bahia for a cocktail-dinner trip around Mission Bay. This was for the newly married Wm Lacey's. It was a quite comfortable and pleasant event.

Sunday, August 18, 1963

230th day - 135 days follow

Worked on Chapter 1 Status today and finished both the textual revisions and the corresponding entry in the supplement, except for one small point.

Tonight went to a company dinner given by the Simmitts for the Dillins at the Yacht Club. A very enjoyable affair. Home at 10³⁰, about 40 present.

Monday, August 19, 1963

231st day - 134 days follow

At the office this morning
Executive Committee met from 9³⁰ until
noon, followed by Directors Meeting until 2⁴⁵

Tuesday, August 20, 1963

232nd day - 133 days follow

At the office this morning.

Worked on Chapter 1 and finished the write-up for the supplement.

Went to a SD Symphony concert tonight. An operetta evening with much pleasant light music. Rudolph Friml played an improvisation of his own air on the piano. Remarkable for a man of his age (78).

Wednesday, August 21, 1963

233rd day - 132 days follow

At the office this morning
Conference with Hi on Commission
matters.

Today made some real headway on
the write-up for Chapter 2 in the
Supplement.

Today my back was out of kilter
which was painful and inconvenient.

Mary, Mary Ann Gould and a
friend in for lunch at home

Thursday, August 22, 1963

234th day - 131 days follow

At the office for a brief time this morning. Then to the library for a Commission meeting 10-12¹⁵. Back to the office for a while.

Got a new air conditioner in the office today.

KW Co Directors meeting at home 2 to 3, this afternoon.

Took the Miller family to dinner at the Chuck Wagon tonight; then visited for a time at their home. Alice's birthday tomorrow.

Friday, August 23, 1963

235th day - 130 days follow

At the office this morning. Long conference with Hi Dillin on the gas rebate and other associate matters.

Dinner tonight at Hi Dillins residence at La Jolla for members of the Light and Power Council and a few of us locals. Talked business with Sherman Chickering. A fine dinner served by Lukache. The speeches and stories afterwards got a little raw in spots. Home at 11.

Saw a lot of my old utility acquaintances whom I hadn't seen in years.

Saturday, August 24, 1963

236th day - 129 days follow

Worked on Chapter 2 and finished
the supplemental write-up and other details.
Wrote a long letter to Fletcher, criticizing
his proposed Reader Digest article.

Sunday, August 25, 1963

237th day - 128 days follow

Wrote letters today. Also made a start on Chapter 6, getting the stuff together for reading it for necessary changes.

Monday, August 26, 1963

238th day - 127 days follow

Meetings of the Solar board of directors today 9 to 12¹⁵. This was the final meeting since the assets were purchased by International Harvester and the corporation was dissolved. An organization (not a separate corporation) to be called Solar Aircraft will be formed and I will be a member of an advisory committee which will meet quarterly to discuss progress. But Solar will operate as a division or department of Harvester.

After lunch at Herb's we went down to the gas Co office for a short time.

Tuesday, August 27, 1963

239th day - 126 days follow

At the office this morning.

Conference with H. L. Dillin on
Commission matters and Power Pool.

Worked on comments on a Copeia paper.

Read in Chapter 6.

Meeting of Zoo Trustees tonight
5³⁰ to 9-0. Usual wrangles.

Wednesday, August 28, 1963

240th day - 125 days follow

At the office this morning.
better and reading chapter 6
today.
Got the galley proof of the
angelensis paper today.

Thursday, August 29, 1963

241st day - 124 days follow

at the office this morning.

Annott came in to discuss the Power Pool

James Clarke came in at 9¹⁵ per appointment to discuss research in San Diego. He stayed until 10³⁰. We had an interesting talk. He says he is preparing a series of articles for the San Diego Magazine.

Dr. Erwin called up from Whittier to talk over his treatment of a boy who had been bitten in the hand by a C. ruber. The symptoms didn't sound very serious.

Continued to read chapter 6, looking for necessary changes.

Read the galley proof of angelensis.

Friday, August 30, 1963

242nd day - 123 days follow

Went to Natural History Museum on the way to the office and turned in the page proof of angelensis + a lot of magazines.

At the office the rest of the time.

Prepared a table of contents (unfinished) for the Academic Press project. Also worked on Chapter 6.

Replied to the Palm Springs invitation for a talk next Spring.

Helped Wilmer replace washers on 5 faucets -- a tiring job.

John Sloan came over this afternoon to check some specimens.

Got a review copy of Porter's new book on Snakes from the publisher. It contains the best trade-last I have ever had for Rattlesnakes; calls it "the outstanding work of this century for all students of snakes". This is very gratifying to me, coming as it does from the Keeper of the entire Zoological Dept of the British Museum for many years, a man who specialized on reptiles.

Saturday, August 31, 1963

243rd day - 122 days follow

Wrote some letters this morning. Then got a letter from the Director of Internal Revenue asking for proof of deductions for Taxes and Contributions in 1962. This will require a lot of hard work. Started on it at once and worked the rest of the day.

Larry came to lunch.

Took Larry to the Chuck Wagon for dinner. Then went back to work on the income tax data.

Worked on the income tax data until 8³⁰. Very tired and quit. Most of the necessary items have been found.

Sunday, September 1, 1963

244th day - 121 days follow

Spent the entire day working up
the Income Tax data; otherwise
nothing done

Monday, September 2, 1963

245th day - 120 days follow

Labor Day

Today prepared the summary of my coverage of Rattlesnakes for the Academic Press Project to be transmitted to Brazil.

Wrote several necessary letters.

Went up to Hesh's place with GG for awhile and pawed over the junk.

Took the Stan Olson's to dinner at the Chuck Wagon tonight.

Tuesday, September 3, 1963

246th day - 119 days follow

Went to a meeting of the Public Library Staff organization - - a farewell in honor of Beatrice Brenneman, former library commissioner, who is leaving for a trip abroad. One of the staff gave an interesting illustrated talk on a trip to Australia. Then coffee and cakes were served. I didn't get to the office until 10¹⁵.

Caught up on reading and a few other odds and ends.

Went up to Philips before dinner; paid Janet for copying my Pliny article

Wednesday, September 4, 1963

247th day - 118 days follow

At the office this morning.

Worked on chapter 6 and other items.

At the Annual meeting of the Zoo from 4 on. Took the kids to the annual dinner and had a good time.

Going down to the stage in the Wegeforth bowl at 7³⁰ I tripped on the stairs (it was quite dark) and had a hard fall. Scraped my left shin and right knee and tore two holes in my trousers so they had to be thrown away. Got a ride up to the top and to my car and went home, not staying for the movies.

Thursday, September 5, 1963

248th day - 117 days follow

Pretty sore this morning

Before going down to the office, I went out to the Internal Revenue Office on Ohio St and turned in the material I had prepared last week end. The man who was supposed to interview me had a previous engagement so I went down to the office, where I got a few things done.

The internal revenue man called up and I made a date to see him at 1³⁰

Went over to Potter's the letter-head engravers and ordered a full supply of letter paper and envelopes. I wonder whether this was wise at my age.

Went out to the Internal Revenue Office to see Mr. Giannangeli. I found that he did not have my prior returns, not even 1962, that they were questioning; they have not been sent down from Los Angeles. I gave him copies. I found he had gone over the material I submitted this morning, and his present interest seemed to be the herpetological collection of specimens and how the value was arrived at. I left him copies of the letters from the other museums setting values and he is to notify me when he wishes to see me again.

Friday, September 6, 1963

249th day - 116 days follow

At the office this morning.
Conference with H. Dillin on the
Power Pool.

Continued reading chapter 6.

Wrote some letters. Also Pliny.

Did monthly accounting this
afternoon.

Saturday, September 7, 1963

250th day - 115 days follow

Finished reading Chapter 6 for corrections and additions.

Worked on Pliny for awhile.

Today received from R. L. Giannangelis of the Internal Revenue office, the check receipts and other papers I left with him.

No comments as to whether the explanatory material cleared up all the questions or not.

Worked up at Lee's with Phil from 10 to 12.

Watched tennis & golf most of the afternoon.

Sunday, September 8, 1963

251st day - 114 days follow

A warm, uncomfortable day.
Elevyn made a long call in the morning.

All I got done was a couple of letters.

Watched more championship tennis and golf on T.V.

Went up to the Phil Kleubers for supper. Janet's birthday tomorrow.
Saw Idaho-Washington pictures.

Monday, September 9, 1963

252nd day - 113 days follow

Admission Day (California)

at the office this morning.
Conference with Hi on the gas
rebate problem.

Finished going over the Pliny
speech, which is now ready for
copying.

Also did some carding of new
separates.

at 2³⁰ went over to the Natural
History Museum to a meeting of the
committee delegated to select a
successor to George Lindsay. This
was followed by a meeting of the
board of directors.

at 5³⁰ went to a reception for
Lindsay given by Norman and Taak
Lawson, mostly Natural History people.
A very pleasant affair in their extensive
garden. Home at 7³⁰. A long tiring
day.

Tuesday, September 10, 1963

253rd day - 112 days follow

At the office this morning. Dr. Henry's secretary called this morning and cancelled the Oct. 3rd date. Will make another later

Louis Faldborg formerly of Chula Vista, who sent me many rattlers years ago, called and told me of some recent interesting field notes. He is still a successful collector. Claims he has a young friend who sells rattlers for \$4 each in Louisiana

I have called this afternoon and said Folsom had brought his rattlers down from Hermosa Beach. Made arrangements to have them photographed at the Zoo tomorrow

Kauffeld is in town. Will lunch with him Thursday

Did a lot of bibliographic work this morning on recent arrivals.

Broke my distance glasses -- a nuisance.

Went to Alice Heynemans tonight for dinner; saw her pictures of Greece and Yugoslavia.

Wednesday, September 11, 1963

254th day - 111 days follow

Went to optical company to buy new frame to replace the one I broke yesterday. They didn't have the color desired so they loaned me one temporarily.

Then took Pliny to Miss Molloy.

Then to the Zoo to see the specimens that Folsom of Hermosa Beach was lending us for photographs: (1) a tzabcan from Yucatan; (2) an edwardsi from western New Mexico; (3) an oregonus from Kern County with only faint blotches; (4) a lutesus with solid almost-black blotch. A very interesting series.

Met Kauffeld at the Zoo and he autographed his collecting book for me.

Arrived at the office at 10³⁰ and spent almost all the rest of the morning reading and discussing a brief on the gas rebate to be filed with the PVC.

Did some bibliographic work this morning from 3³⁰ to 6⁰⁰.

Thursday, September 12, 1963

255th day - 110 days follow

at the office this morning.
Worked on bibliographic
items and made considerable progress
12 to 2³⁰; had lunch at the Zoo
with Karl Raupfeld, Carlos Rivero
of Caracas Venezuela, and Chuck
Shaw. Had a lot of interesting
discussion.

Mary Ann Gould called this
afternoon. She leaves for S.F. tomorrow.
We talked about her affairs for 1½
hours.

Very hot again today.

Friday, September 13, 1963

256th day - 109 days follow

At the office for a short time this morning; to a library commission meeting at 9¹⁵. It lasted until 12⁴⁰.
Went to dinner at the Milton Hellere tonight. Home at 11³⁰.

Saturday, September 14, 1963

257th day - 108 days follow

Worked on letters and bibliographic problems this morning.

Ken Flocke came in this morning (10-11¹⁵) to discuss material prepared for the coming meeting of the Snowy committee.

Miss Breed brought in some library material this noon.

George Lindsay called with E. Yale Dawson, a possible candidate for the Natural History Museum job.

Joe Copp called to discuss his problems and operations.

Sunday, September 15, 1963

258th day - 107 days follow

Bibliographic filing this morning.
Got things fairly well cleaned up.

Allan K. came in at about 10 and
we talked business for a couple of hours.

Findlay E Russell came in just after
noon and we discussed all kinds of
herpetological matters until nearly 2³⁰.

The PMKs and DIMMs were also
here.

So this was a day characterized by
several long interruptions (including an
unwanted cat) so I got nothing done
except some bibliographic work.

Monday, September 16, 1963

259th day - 106 days follow

At the office this morning.
Meeting of the Executive Committee, 10
to 12; then the Directors 12 to 3.

Tuesday, September 17, 1963

260th day - 105 days follow

Got up at 3 and worked until 5 on the speech to be made before the Library Gifts Committee next Friday.

Spent the morning at the office. Finished the speech and took it over to the library. Voted in primary election.

Feeling distinctly below par today. Took it easy this afternoon.

Had about 14 people in to dinner tonight. A farewell affair for George Lindsay. Listened to the Dodger-Cardinal game; also the election returns. Think everything went fairly well. Had a long talk with Judge Fred Kunzel about the Zoo.

Wednesday, September 18, 1963

261st day - 104 days follow

Meeting of the Citizens Advisory Committee, Air Pollution Control Board this morning 9³⁰ to 11²⁰. A lively meeting with plenty of discussion.

Then to the office until 12³⁰. Discussed POC matters until 12¹⁵ with Joe Sinnott.

Took the Miller kids and Judy to the Chuck Wagon for dinner tonight.

Received from the printer today a complete new stock of stationery.

Thursday, September 19, 1963

262nd day - 103 days follow

Rosh Hashonah - First Day of Jewish New Year

At the office this morning.
Informal meeting of the Executive
Committee that lasted until 1PM.

Wrote a lot of letters today and am
now even with the game.

Some bibliographic work today.

Friday, September 20, 1963

263rd day - 102 days follow

Rosh Hashonah - Second Day of Jewish New Year

At the office this morning. Conference with Dillin and with Sinnott (via loud-speaker phone at SF) on PUC matters.

Worked on bibliographic items and made some progress

At noon went to the first meeting of the Special Gifts Committee of the San Diego Public Library at the Esquire Room of the Town and Country Hotel in Mission Valley. Made a brief speech on the purposes of the committee and its proposed method of operation

Early this morning went out to Leslie's place to open up for a pair of truckers that Jay had sent out to get newspapers.

Today received The Proof of the Encyclopedia Americana Rattlesnake article. Also an inquiry on the operation of frog farms from Data International.

Saturday, September 21, 1963

264th day - 101 days follow

A very unsatisfactory day because of many long interruptions, although I did catch up on correspondence. Also corrected Encyclopedia Americana gallery proof.

Joel Sanders 8846 Hindell ave, Downey and Dennis Heffler blew in about 9³⁰ and stayed until about 11³⁰ talking herpetology. Did get the data on a record sidewinder $32\frac{1}{2}$ " (824 mm) long. A ♀ setting a new record. 15 mi E. of Brawley.

Then Larry and Judy came around (they leave for Stanford by train this afternoon) to say good bye.

Did a lot of time consuming jobs which get nowhere on important projects. Got some carding done tonight.

Sunday, September 22, 1963

265th day - 100 days follow

Wrote more letters; also did some more bibliographic work. Went up to Phil's for a short time; also to Leslie's but did no work there.

Corrected the write-up for the supplement for Chapter 2. Checked some of the other chapters.

Received from Miss Molloy the multilith original for Pliny. Read it and found a few corrections required. Will read it again before returning it.

Worked on the *Pranka* specimen of *i. intermedius*, but found it so small I won't be able to get much if anything out of it. Eyes not good enough, even with a binocular microscope.

Monday, September 23, 1963

266th day - 99 days follow

This morning went to a breakfast at the Grant Hotel given by a group calling themselves the Ambassadors. This in honor of Harry Bercher, President of International Harvester and the other Solar Directors. The breakfast was from 8 to 9.

Then went to a meeting of the Solar Directors, the first under the new arrangement. This lasted until 11¹⁵. Then to the office of the gas Co until noon.

Went up to Jess's for a little over an hour this afternoon. The newspapers have now been removed (except in the garden room) and there is space wherein to work and clean things up.

Tuesday, September 24, 1963

267th day - 98 days follow

At the office this morning.

Had a talk with Dillin about PUC matters.

Reread the Pliny article and found 3 more errors.

Also rechecked the Encyclopedia Americana rattlesnake proof, made a copy and mailed it in.

Meeting of the Trustees of the Zoo 5³⁰ to 7⁴⁵ tonight.

Wednesday, September 25, 1963

268th day - 97 days follow

At the office this morning.

Conference on PUC matters from 10
until 12⁴⁵.

A sudden hot spell this afternoon;
very uncomfortable.

Went to the Matthews - Hatch
party at the Yacht Club tonight,
for the baby's.

Thursday, September 26, 1963

269th day - 96 days follow

at the office this morning.

A record-breaking hot day; very uncomfortable. Difficult either to sleep or work.

Read Sloan's amphibian paper. He came over in the afternoon and we discussed it.

Little else done -- too hot,

got the angelesensis paper today --

350 copies.

Got the final corrected draft of the Pliny speech. It's now ready to be run.

Friday, September 27, 1963

270th day - 95 days follow

82° F at 3 AM.

Slightly cooler today, but still uncomfortably warm.

At the office this morning.

Had a talk with Philip about his Mexican trip yesterday to see the dedication of the Rosarita Power Plant by the President of Mexico.

Talked with He Dillin about the gas refund.

Reread Sloan's San Diego County Amphibian paper, made more corrections and returned it to him.

Went to the Natural History Museum and said good bye to George Lindsay.

Got some books at the NH bookshop.

Saturday, September 28, 1963

271st day - 94 days follow

Yom Kippur (Day of Atonement)

Except for a poem written for
Beet's birthday party today was
a total loss. It was too hot to work

Sunday, September 29, 1963

272nd day - 93 days follow

A little cooler today, but still uncomfortable.

Put away the 1962 Income Tax data that was taken out for their check.

I never did get a clearance from them; they just returned all the data without comment, a very unsatisfactory way of doing business. I waited a month before refiling the material, expecting to hear from them.

Filed away all the material pulled out to write the angelensis paper.

Cool enough this afternoon to make it possible to work. So I made up the herpetological list that Whitaker requested for Torrey Pines State Park.

Monday, September 30, 1963

273rd day - 92 days follow

Get the office this morning.
Meeting of Executive group. 10³⁰ - 12⁰⁰,
then directors meeting until 2⁴⁵,

Tuesday, October 1, 1963

274th day - 91 days follow

At the office this morning.

Had a conference with Kolder
on printing problems.

Began a program follow-up system
to make it possible to pick up the
Rattlesnake work where it was last dropped
without checking back to see what was being
done when it was dropped. This is
something that has been badly needed to
make things go more continuously.

Got my new spectacle frames.
Worked on monthly accounts this
afternoon.

Wednesday, October 2, 1963

275th day - 90 days follow

Worked from 2 to 5 this morning on the program-planning record so as to keep track of and expedite progress on the Rattlesnake overhauling. My memory has deteriorated to such an extent that I must have a written record of the status of progress, otherwise I can't remember what has already been done, or what should be tackled next. Can't even recall what my latest activity was -- that is what I am currently working on. At the office this morning.

Had conferences with Sinnott and Dillon on Power Pool and Gas Rate matters.

Worked today on the program follow-up system for Rattlesnakes and made progress. Rechecked Chapter 3.

Thursday, October 3, 1963

276th day - 89 days follow

Succoth

at the office this morning.

Today I made more real progress organizing the work program, so I can pick it up after having to turn aside for other duties. This has been periods as with my lack of memory. It has been impossible to pick up the work where I had left off. I think maybe I can now overcome this difficulty.

This afternoon 3-4³⁰ attendance meeting of the library's book-gift steering committee.

Friday, October 4, 1963

277th day - 88 days follow

at the office this morning.

Received from Kubler the copies of the Pliny paper.

Did quite a lot of carding of separates.

Talked with Shaw and a TV station the program now planned for next Tuesday.

Went to a buffet supper at the Anewalt's tonight. Home at 9.

Worked on the wall paper in the middle room (Sunday)

Saturday, October 5, 1963

278th day - 87 days follow

A lot of necessary miscellaneous work this morning, but not much toward Rattlesnakes. Some planning and program arrangement.

Went out to PMKs and heshie for a short time.

Watched the Dodge - Yankee world series game. Dodgers 1-0.

Took Louise Doxey, her son, and a friend to the Chuck Wagon for dinner tonight.

Got a clearance on my 1962 income tax return as filed from the LIT office. This validates the deduction I have taken on the herp. specimen collection.

Sunday, October 6, 1963

279th day - 86 days follow

got up at 3 and worked on miscellaneous items until 4³⁰

got back to work on the Program again. Through great good fortune I found the missing Supplement ms. of Chapter 1. It was filed by mistake in the Encyclopædia Americana folder.

Allan came in 10-11³⁰ to talk KW business.

Then the Miller's came down to show us Larry's new Corvair.

Watched the final game of the World's Series 1 to 3; Dodgers 2-1.

Worked on the wall paper in the middle bed room. Parts came loose in the recent hot weather. Also stuck the derrisus maps on cloth to save space.

Monday, October 7, 1963

280th day - 85 days follow

At the office this morning
Continued work on the Rattlesnake
Program Progress Record and got it
actually underway. Think I now have
this organized and perfected to such
an extent that I can keep track of what
I am doing and should do at all
times; a very important facility for
a person whose memory is mostly a
blank.

Continued work on Chapter 4, mostly
correcting the Xerox sheets that will
show the changes to be made in the
printed ~~at~~ part of the First Printing.

Tuesday, October 8, 1963

281st day - 84 days follow

This was TV day.

Went over to the Zoo at 9¹⁰ and worked until 11⁵⁰ on what was to be a 7½ minute episode (released some day in the future) on Zoonama, this one to be on the rattlesnake's rattle. There were several retakes, none any too good, and I was quite worn out when they were finished. Too much standing up for me.

I was amazed at the number of men and the extent of the equipment required for this minor affair.

There was no prepared script, although it was more or less made definite in the several tryouts. I had originally expected that the program was to be based on questions that Chuck Shaw would propound to me; however this scheme wasn't followed. The script, to whatever extent it can be said they had one, was based on preliminary chatter that I gave them -- incidental information on rattles and their use -- before we got down to business.

Went to the office for half an hour at noon, then came home all tuckered out.

Wednesday, October 9, 1963

282nd day - 83 days follow

At the office this morning.

Made some progress today on Chapter 4, Morphology. A good start on the Supplement

Opera Guild dinner tonight. Milt Hellers, Sullivan, and Bonds were our guests. Also Mrs Hadley. The entertainment - Jan Popper and Dorothy Kirsten fairly good. Home at 10.

Thursday, October 10, 1963

283rd day - 82 days follow

At the office this morning.
Made some more good progress today
on Chapter 4.

Friday, October 11, 1963

284th day - 81 days follow

At the office for a short time this morning. Conference with Knerr on PUC matters.

Meeting of the Library Commission from 9⁵⁰ to 12¹⁵. Metz came in and told us a lot about Benjamin who left the library about \$500,000. We discussed the will and possible disposition of the money at length.

Back to the office for awhile.

Wrote letters in the afternoon. Then got back on Chapter 4.

Got word at 5 that Blaine Gould had died just before 4 this afternoon. It had been recognized for some weeks that her case was hopeless.

Quite a large filling fell out of my right rear upper wisdom tooth tonight.

Saturday, October 12, 1963

285th day - 80 days follow

Columbus Day

Worked on Chapter 4 and made
some progress

Also wrote a poem for the
Baron's 50th Wedding Anniversary.

Sunday, October 13, 1963

286th day - 79 days follow

Got in some good leaks on Chapter 4 today; think it is all wound up including albinos, but except hybrids, which will be a real job.

Spent a lot of time this afternoon going over the hybrids found in the Basement and listing the numbers of those available. There may be more not yet found, or over at the Natural History Museum.

Monday, October 14, 1963

287th day - 78 days follow

At the office this morning.

Spent time arranging the hybrid material; particularly checking the specimens on hand.

Meeting of the publication committee of Natural History Society from 3 to 4 and 5 to 5³⁰; directors meeting 4 to 5.

Before these meetings tried to locate some hybrid specimens at the N.H. laboratory. No luck.

Took the PMKs to the Chuck Wagon tonight to give Jeffery a send off on his trip around the world.

Then to Mary, Mary a frothy comedy at the Fox. We were in the 16th row and couldn't get more than 1/10 of the wacko's that are the sole basis for the show. As a result it was practically a total loss.

Tuesday, October 15, 1963

288th day - 77 days follow

at the office this morning for a part of the time.

Went to Blaine. St George Gould's funeral at 12³⁰.

The Sherwins and Ed Uhlenberg came to dinner tonight.

Received as a loan from Bogert 11 rattlesnakes collected on his recent Mexican trip.

Wednesday, October 16, 1963

289th day - 76 days follow

At the Board of Supervisors meeting this morning for a discussion of smog problems and a future meeting to decide on crank-case or blow-by devices on autos. This was from 9³⁰ to 11⁰⁰. Then to the office.

Wrote some letters today.

Went with Uhle to the Sherwin's for dinner tonight.

Thursday, October 17, 1963

290th day - 75 days follow

At the office this morning.

Wrote letters today; also reread the Population Explosion paper, preparatory for the next Scholastic meeting.

Friday, October 18, 1963

291st day - 74 days follow

At the office this morning.

Sorted out the new material on the population explosion, of which there is a large amount.

Worked on the new oaxacus material and got a lot of data. Made scale counts on Bogert's 4 new specimens.

Saturday, October 19, 1963

292nd day - 73 days follow

Worked all day on the Population Explosion paper and think it was improved in some details.

Gave the paper tonight at Scholia. It took exactly 45 minutes. There were 14 present besides myself; the only visitor was Bill Hacey.

I think it went OK, judging from the discussion, which lasted nearly an hour. My rebuttal took 10 minutes 9:45 to 9:55.

Tansen and Leonard were the most critical of the paper.

Most of them seemed satisfied with the explanation in the rebuttal.

As usual I was tired and sopping wet when the meeting was over.

A lot of the members I particularly wished to have present were not there.

Sunday, October 20, 1963

293rd day - 72 days follow

Today was practically a lost day. I had hoped to continue work on Boyer's specimens, but no soap. About all I succeeded in doing was to get all the population explosion material filed away.

Had company for lunch -- Jay and the Curries of Redwood City. They stayed most of the afternoon.

Monday, October 21, 1963

294th day - 71 days follow

At the office this morning, Meeting of the Executive Committee from 10 to 12¹⁵, followed by Directors meeting until 2¹⁵.

Tuesday, October 22, 1963

295th day - 70 days follow

Made a restart on Morphology today. As usual I have to go over all previous work to find out just how things stand. I must make a practice of making more complete notes on the status of things whenever I leave a project temporarily because my memory is so poor. Also restarted on the only major unfinished part of Chapter 4, namely Hybrids.

At the office this morning. Also went to the library for a short time. Conferences with PMK and Karnes.

Did some work today on Bogert's 7 specimens of intermedius. I am going to have a tough time with these because of the deterioration of my eyes.

Meeting of the Zoo trustees tonight. First the Finance Committee; then the trustees. From 5³⁰ to 7³⁰.

Wednesday, October 23, 1963

296th day - 69 days follow

At the office this morning.
Conference with Noble about past
purchasing policies; also with Karnes
about old budgets.

Worked on hybrids today and made
some progress

Swan came over from the Museum
and we discussed various activities.

Thursday, October 24, 1963

297th day - 68 days follow

At the office this morning.

Did some carding today; also worked
in the basement.

Friday, October 25, 1963

298th day - 67 days follow

Woke up today with an unpleasant attack of cystitis. Called up Mr. Gerald Howe's office and made an appointment for 3 o'clock this afternoon.

At the office for a short time this morning but left at about 10⁴⁵. Feeling pretty lousy. Passed several gobs that looked like scales.

Did a little carding this morning.

Finally got in to see Dr. Howe at 4 PM.

Diagnosis was cystitis, somewhat worse than the attack of July 1962. He prescribed the same medicine, so I will be able to use up what was left last time. Next appointment Nov. 1 at 11¹⁵.

If I am uncomfortable next Monday, I am to call him then.

At last I have received a letter from Jennings at the U.C. Press. He is resigning to go into architecture. No successor mentioned. This is very bad news for me, as I shall have to start fresh with a new editor, really hard luck. Jennings and I had worked out a lot of methods for the revision.

Sloan did some scale counting today. I didn't know he was doing it so exercised no supervision. He counted the 7 new glycids.

Saturday, October 26, 1963

299th day - 66 days follow

Feeling lousy today. Couldn't do anything but lie around, accomplishing nothing. Chuck Shaw had promised to bring over two live adult hybrids for study, but he didn't show up which suited me fine.

Sunday, October 27, 1963

300th day - 65 days follow

Feeling a little better today. almost
no discomfort, and almost no pep

Monday, October 28, 1963

301st day - 64 days follow

At the office this morning, but got there late as I made some errands on the way.

Wrote several letters.

Talked Company business with Phil. Also with Joe Cannon.

Felt comfortable but no pep; tire very easily.

Tuesday, October 29, 1963

302nd day - 63 days follow

Continued feeling better today although still tire easily. Still taking red pills.

At the office this morning.

Made progress today carding a lot of new separates.

Also counted 3 of Bogerte 7 C.i.
gloydi.

Wednesday, October 30, 1963

303rd day - 62 days follow

At the office until 11 this morning. Then went out to La Mesa. Left in plenty of time but got completely lost and didn't get to the Rotary Club until 12⁴⁵. I went all over the damn county -- way up to some of the houses on narrow roads in Grossmont -- finally located the Rotary club, where I was to talk at 12⁴⁵. I thought they would be frantic, but they weren't troubled in the least. Of course I got no lunch. It was their 38th anniversary meeting.

I talked on rattlesnakes and it seemed to go over OK. I told them I would leave 5 to 7 minutes for questions, so I quit at 1²⁵, but their questions continued until about 1⁴⁰.

Came back to town with an old-timer who wanted to be taken to the Bank of America which is where I dropped him.

Ate lunch at home; pretty tired. I have dropped the pink pills as they seem to give me indigestion.

Thursday, October 31, 1963

304th day - 61 days follow

Last Day for employers to file quarterly Social Security Tax Return
and Wage Report, covering three previous calendar months

Hallowe'en

Reformation Day

At the office this morning.
Conference with Philip concerning
certain problems of service clearances
over building roofs.

Got in some good luck today. Cleared
up a number of bibliographic references;
also did some pink slips and carding.

Counted the last four of Bogert's
new C. i. gloydii. Three are so small
that some of the special head scales
are a little doubtful.

Friday, November 1, 1963

305th day - 60 days follow

All Saints Day

At the office until 10³⁰ this morning.

Had an appointment with Dr. Hartz this morning at 11¹⁵; got there a few minutes late, but still had a short wait. He reported the urine completely cleared up. Made a retention test and also checked the prostate by feel only. Said everything seemed to be OK. Continue to take the red pills for 3 more days. Come in for a check-up at the end of 3 months (this would make it Feb 1) or come in at once if cystitis flared up again.

Gas Co turned furnace pilots and checked water heater today.

Did accounts this afternoon.

Worked on gloyd's characters tonight. It now looks as if gloyd would be invalid.

Saturday, November 2, 1963

306th day - 59 days follow

All Souls Day

Worked all day on the gloydi - intermedius problem and decided not to retract the recognition of gloydi notwithstanding in 5 out of 32 cases the postnasal touches both the first and second supralabials, which is the case in intermedius intermedius. This decision was a great relief; I hated the idea of going back and reversing the decisions already made. Maybe I will find some other differences which I doubt. All of this required a lot of checking and tabulating.

At 4:15 went out to the 50th anniversary of the Ellis Barrons in the Swatwater Valley. Got lost and had a hard time finding the place; but finally made it. Got home at 7.

Sunday, November 3, 1963

307th day - 58 days follow

got in some good luck today. Spent most of the time clearing up glossy, making changes necessitated by the 7 new Bogert specimens and the Planka specimen of intermedia. This involved changes in the key, tables etc.

Cleared up a lot of other miscellaneous work.

Jay called in the morning; and Philip for a short time in the afternoon.

Monday, November 4, 1963

308th day - 57 days follow

At the office this morning.

Today I got started again on hybrids and made some real progress, at least on lining up the work. Found the six broods of the scutulatus - unicolor series that were born subsequent to the publication of First; now I will count their scales in the prefrontal area and body blotches.

Tonight Shaw brought over the hybrids from near Rose Canyon and Drapping Springs. We had expected to use a new anesthetic on them so as to make scale counts. It was finally decided to pickle them instead, which is fine with me as this will permit more accurate examinations.

Tuesday, November 5, 1963

309th day - 56 days follow

Election Day

at the office this morning.

Had a conference with Philip on the company's patent program re employee inventions.

Worked hard today and accomplished quite a bit on 3 projects:

- 1) Checked Klemmer's Check list against mine.
- 2) letter to F.F. Russell on a proposed editorial of his for TOXICON on toxin valuations (MLD; LD₅₀; etc)
- 3) Went through the collection catalogue and got more data on scutellatus - unicolor Fr hybrid broods.

Four of Arthur Stearn's sisters, brother, and nephew in for dinner tonight.

Wednesday, November 6, 1963

310th day - 55 days follow

Today I finished the Russell letter.
Once more overhauled, rearranged,
and put hybrid material in separate envelopes.
Got out the first 5 scutellus - unicolor
broods; all 11 broods are now in separate
bottles ready for counts.

Studied the program for future work.

Thursday, November 7, 1963

311th day - 54 days follow

Today I attended a meeting of the Army advisory committee from 9³⁰ to 11³⁰ to discuss our recommendation to the Board of Supervisors as to the adoption of the rule requiring crant case devices on second hand cars and also instituting a state inspection system. Voted to recommend both to the Supervisors; also the writer was to set forth the reasons at the Supervisors Meeting scheduled for Nov. 25. Then to the office for a short time.

Tonight went to a San Francisco Opera Co presentation of Falstaff. Don't think I ever heard this opera before. Pleasurable music with no catchy arias. Showed the Verdi touch in many phrases.

The cast included Geraint Evans as Falstaff, Mary Costa as Mistress Ford, Jami Martin as Meg, Thomas Stewart as Ford, and others equally good.

Fortunately we did not go to a preliminary dinner, so the schedule was not too hectic.

Friday, November 8, 1963

312th day - 53 days follow

Meeting of the Library Commission this morning, from 10 to 11⁵⁰. Almost all the time was given over to the discussion of the disposition of the Benjamin Bequest.

Walter Folcke came up this afternoon with the new 1964 Chevrolet. He did not leave it as the seat belts need retractors. He offers only \$200 for the old 1953 Cad, which is disappointing but I am disposed to take it as its condition is poor and I don't want any headaches disposing of it to some individual buyer.

This afternoon I counted the scales in the prefrontal area and the body blotches on the scutellatus - unicolor hybrid series and can now proceed with the statistical computations.

Saturday, November 9, 1963

313th day - 52 days follow

Mostly miscellaneous clean up work today. Made the coefficient of variation calculations on the scutellatus - unicolor hybrids but not much else on the book revision.

Walter Folcke brought out the new 1964 Chev. and that took a lot of time. Also we discussed smog control devices for autos.

Watched the Northwestern - Wisconsin game on TV for a while.

Called up Bach and arranged the insurance on the new car.

Went to the Wm Lacey's for dinner tonight.

Sunday, November 10, 1963

314th day - 51 days follow

Today I tackled the hybrids again and made some real progress, especially with the sautulatus - unicolor series and the changes required in first to accomodate the latter broods.

Monday, November 11, 1963

315th day - 50 days follow

Veterans Day

Get the office this morning.

Spent a lot of time on car insurance and similar matters.

Went to a Stanford meeting at the Yacht Club this noon. Talks by President Sterling and Trustee Tucommen on the Pace program and the need for donations by industry.

Meeting of the directors of the Natural History Society 4 to 5³⁰ this afternoon. I got there 15 minutes late.

Tuesday, November 12, 1963

316th day - 49 days follow

At the office this morning.

Did a lot of carding today. also prepared the bibliographic slips covering needed references for the coming trip to Los Angeles.

Dinner party tonight at home:
Lacey, Bruce, Oscar Cotton, Kenore
Forward, De Ette Stuart, Clara Torrence.

Wednesday, November 13, 1963

317th day - 48 days follow

Get the office this morning.

Miss Breed came over for a discussion of the Benjamin request and other library matters.

Worked on hybrids and made progress; practically finished the scutellatus-unicolor section.

Did some additional reading of Chapter 7, looking for additional necessary changes.

In the late afternoon I tickled the two hybrids I have had for the last 2 or 3 weeks: the Dripping Springs specimen - probably ruber-physchus and the second ruber-helleri from near the head of Rose Canyon.

Wrote some letters.

Thursday, November 14, 1963

318th day - 47 days follow

At the office this morning.
long discussion with Pinnott
and Sherwin on PUC matters; also
CORE.

Worked awhile on Chapter 7

Went to a Library Commission
meeting 13⁰⁰ to 3⁰⁰; then to a meeting
of the Gifts Committee.

Had a sudden attack of cystitis,
and had to leave the committee.

Gave up a dinner and opera
presentation of The Queen of Spades.
David Jr. _± went in my place.

Friday, November 15, 1963

319th day - 46 days follow

Went down to the office this morning. Had a conference with Lewis Kner about the prospective additional El Paso Natural Gas rebate.

Decided to go to Los Angeles despite the new cystitis attack.

Started for Los Angeles at 11²⁵ and arrived at the Parkway Motel at 2⁰⁰.

It rained much of the way from Encinitas northward. Gg drove

bay around the room all afternoon.

Got into a bad traffic jam on the way down to Carls where we usually eat. Luckily we started early so we still got to the opera on time. Carls was jammed. There was another long delay leaving the parking lot at the opera; however we got back to the motel at midnight.

The opera was *Traviata* and it was very good with Mary Costa as Violetta, Renato Cioni as Alfredo and Thomas Stewart as the elder Germont. Francesco Molinari - Pradelli conducted.

A very satisfactory evening. I felt somewhat better, although the symptoms continued undesirable.

Saturday, November 16, 1963

320th day - 45 days follow

This morning I left the motel a little before 10. Went shopping and succeeded in finding the little surplus store where I had obtained some plain black cotton socks last year or the year before. This is the Army & Navy Supply Store, a tiny hole in the wall at 546 S. Main. Anyway I got a dozen pairs, and was pleased to have found the place.

Then went to the Public library, where I arrived at 10⁵⁰. Worked until 1³⁵ by which time I was so tired I had to quit. Got home at 2¹⁵.

I cleared up a number of Biological Abstracts items and several others of some importance, particularly one on photographing the strike of a rattlesnake.

Rested the remainder of the afternoon. Gf brought Bertha Pollard in. She tried to get a seat for tonight but had no luck.

Ate at Carl's. Everything was peaceful tonight; no crowd.

The opera *Forza del Destino* was excellent. The cast included Leontyne Price as Leonora, James McCreckan as Alvaro, Julien Hadd as Carlo, Walter Kreppel as Guardiano, and Elfege Espanza as Melitone. Same conductor as last night.

Price was in fine form; the audience was most enthusiastic.

Got home at 12¹⁰.

Sunday, November 17, 1963

321st day - 44 days follow

Started for home this morning at 9 and arrived at 11³⁰. I drove, the traffic was pretty tough, especially from Santa Ana to Encinitas.

Spent most of the afternoon trying to catch up.

Dr. Gale Dawson came in for a short while to discuss some Natural History Museum printing problems.

Cystitis better today; fewer annoying symptoms.

Concert tonight by Sir Malcolm Sargent and the Royal Philharmonic Orchestra. The prize was Sicelius No. 2.

Monday, November 18, 1963

322nd day - 43 days follow

At the office this morning.
Meeting of the Executive Committee
from 9³⁰ to 12¹⁵, followed by a
Directors Meeting, from 12¹⁵ until 3.
CORE picketed the office building
to day.

Went to a play tonight-- part of
a series to which we had subscribed.
It was John Ireland in "A Thousand Clowns".
A Rousing experience. We were in the 16th
row and couldn't hear anything during
the first two acts. Then, in the last act
they turned up the loud speakers so we
heard fairly well, but even so we couldn't
understand what it was all about.

Tuesday, November 19, 1963

323rd day - 42 days follow

At the office this morning.

Wrote a lot of letters and I caught up on correspondence.

Went up to Les's this ^{afternoon} ~~morning~~ to note progress.

Made scale counts on the two hybrid rattlers tonight.

Wednesday, November 20, 1963

324th day - 41 days follow

At the office this morning.

Worked on bibliographic material today and made good progress including the incorporation of the material secured in Los Angeles last week.

Thursday, November 21, 1963

325th day - 40 days follow

at the office this morning.

Went over to the Public library and ordered a lot of references, primarily from the National Medical library. Checked a few items in current magazines.

Worked briefly on hybreds.

Chatted with Dillin and Sherwin on PVC problems.

Tonight went to an opera dinner at the Cotillion Room of El Cortez, and then to a performance of Die Walküre at the Fox. This was enjoyed, but I must admit I was very tired by the time I got home, a little after midnight.

The cast included Jon Vickers (Siegmund), Sivi Ewerdotter (Brünnhilde), Walter Kreppel (Hunding), Otto Edelmann (Wotan), a last minute substitute, Amy S. Howard (Brünnhilde), and Regina Resnik (Fricka), another last-minute substitution.

And so we bid farewell to the opera season of 1963, and I admit that although it has been enjoyable it has also been pretty tiring in my present state of health.

Friday, November 22, 1963

326th day - 39 days follow

At the office this morning. CORE still picketing.

Took my brief biography over to the engineering department to be multilithed.

Conference with Phil on an infra red detector to be used to locate defective tap-off clamps.

Mrs. Kay Gates Frazer came in to get a herpetological photograph she had left to have the animals identified.

Miss Clara Breed came in to discuss a proposed ordinance to govern the use of the Benjamin gift to the library.

Conference with Sinnott about CORE and also PVC matters.

Got news of Kennedy's assassination at about 11.

Saturday, November 23, 1963

327th day - 38 days follow

Miscellaneous work today. Not much progress on morphology; too much interfering matters today. Did work up a recently important catalogue of ~~inter~~ herpetological material from Josef Ziegan, Berlin, to see if any ^{items} should be purchased.

Went to a dinner party for De Ette Stuart at Lenore Forward's. About 14 present.

Sunday, November 24, 1963

328th day - 37 days follow

Continued work on the Ziegler list.
Judy came in at lunch time.

Spent a lot of time at TV and radio.
The news of the shooting of Oswald
is simply incredible.

Worked on smog problems even though
the Board of Supervisor's meeting has been
indefinitely postponed.

Herb Kunzel called up to say that
the Solar meeting would be held tomorrow
morning.

Went to a cocktail party and Buffet
supper at the Barretts at La Jolla. Drove
out with Mary Johnson in her new Plymouth
station wagon. A very pleasant party with
good food.

Monday, November 25, 1963

329th day - 36 days follow

Jelas board meeting this morning, 9
to 11; then to the office until noon, hooked
around some proposed plant changes at
Jelas.

Did considerable card filing today.

Tuesday, November 26, 1963

330th day - 35 days follow

got up at 2³⁰ this morning and worked until 4³⁰ on card filing. Am now up to date.

At the office this morning. Worked all morning preparing the data for the smog meeting of the Board of Supervisors, postponed from Nov. 25. In the afternoon I got word the meeting had now been set for 9³⁰ AM, Dec. 1.

Kiv directors met here 2⁰⁰ to 3²⁰.

Zoo finance committee followed by Trustees meeting 5³⁰ to 8²⁰ PM.

Wednesday, November 27, 1963

331st day - 34 days follow

At the office this morning.
Worked all morning on the smog
report.

Also worked on it during the rest of the
day.

Thursday, November 28, 1963

332nd day - 33 days follow

Thanksgiving Day

Worked hard this morning preparing the smog committee's report for presentation to the Board of Supervisors at next Monday morning's meeting and made good progress.

Thanksgiving dinner for 15 which took from 1 PM until late in the afternoon.

Friday, November 29, 1963

333rd day - 32 days follow

Continued with the smog report and made more progress.

Went up to her's with gg this morning and spent about $1\frac{1}{2}$ hrs there. Found a black cat locked in one of the rooms. Seem to have lost one of the keys.

Took some photographs in the afternoon.

Today is our 52nd wedding anniversary.

Tonight Philip Regal of U.C. L.A. brought in a C. intermedius intermedius from 5 mi. N. of Pachuca, Hidalgo. if it checks out it will be a considerable range extension.

Saturday, November 30, 1963

334th day - 31 days follow

Got up at 3¹⁵ this morning to finish the smog report. Finished it at 4³⁰. Worked until 5 on other items.

Ozro hauled the yellow sheets (the Supplement entries) for Chapter 4.

Made complete scale counts of the new intermedius specimen that came in yesterday.

Went up to Les's house for a while.

Other miscellaneous work.

Sunday, December 1, 1963

335th day - 30 days follow

First Sunday of Advent

Made the changes in maps, keys, and tables necessitated by the newly available specimen of *i. intermedius* from Hidalgo.

Dinner tonight at Hotel del Coronado with Kellys and Smiths of Buffalo.

Monday, December 2, 1963

336th day - 29 days follow

Went to the meeting of the Board of Supervisors this morning from 9³⁰ to 12⁰⁰. I made my report of the recommendations of the Citizen's Advisory Committee to the Air Pollution Control Board of S.D. Co. Took about 15 minutes; I think it went over OK. This was followed by a long discussion, thoroughly ~~de~~ covering the proposal for mandatory installation of crank case devices on 1950-1960 cars.

Went home for lunch and then down to the office, where at least I was able to clean up my desk.

Then back to the Supervisors meeting which lasted from 2 to 3. They finally voted (3 to 2) to install crank case devices and to authorize state inspection stations.

Tuesday, December 3, 1963

337th day - 28 days follow

At the office this morning. Long conference with Dillin on various Company matters.

Took films up to Bunnell's. Will be ready in a week.

Did a little work on getting the data lined up for the Academic Press project. Also a little organizing on hybrids.

Went to a meeting in Bonthurick's office to discuss the Otto request. This lasted from 5 to 6.

Heard from the new editor who will handle Rattlesnakes: Miss Lucie E. N. Dobbin, Executive Editor, Calif 94720

Wednesday, December 4, 1963

338th day - 27 days follow

At the office this morning.

Conferences with Sinnott on P.V.C.
business and with Phil on Engineering
Dept. operations and problems.

Wrote letters.

Spent most of the afternoon on
my accounts.

Thursday, December 5, 1963

339th day - 26 days follow

At the office this morning until 9³⁰; then went to a meeting of the Public Utility Commission in the New State Building that lasted from 10 until 12. Commissioner Bennett presided. The meeting was supposed to be for the purpose of outlining the data and methods to be followed in the prospective rate case, but instead it was used as a sounding board to criticize the Company's position on gas rate rebates. The Commission and its attorney belabored the Company for its attitude and praised the opposing City attorneys for their positions.

Went back to the office in the afternoon 1¹⁵ to 3¹⁵ and participated in discussion of the morning's proceedings.

Went to Old-Timers Dinner tonight. Got home at 9³⁰. It was a satisfactory affair, but I was rather tired because of having no rest this afternoon.

Friday, December 6, 1963

340th day - 25 days follow

This morning went to Radio Station KGB and had a question and answer period on Smog. The station questioner was Fred Lewis and my partner answering questions was Dr. J.B. Astew. He did more answering than I. This lasted from 7⁵⁵ to 8⁴⁵.

Then to the office. Had a dentist appointment with Dr. Sam T. Emery and was in the chair from 9³⁰ until 11²⁰. Had a large filling replaced (upper right) and a general clean up. No other bad items were found.

Returned to the office and accomplished miscellaneous items.

Tonight went to a dinner meeting of the Zoological Society's Research Committee. Saw a lot of friends. Met Dr. Perry Gilbert of Cornell who is a friend of Dr. Wright's.

Found Dr. Fetter favoring the idea of using a part of the Otto money for the San Pasqual breeding farm project. This is a disappointment to me.

The talks at the meeting were by Dr. Michael Palsin on the differences in milk by different animals; and by Stahnke on scorpions. He inevitably got to rattlesnakes and claimed the failures in cryotherapy were due to incorrect techniques in the removal or warming up period of the treatment. Home at 10 P.M.

Saturday, December 7, 1963

341st day - 24 days follow

Spent most of the day sharpening up the Campo story for the talk at the Wednesday Club next week. Added a few episodes to fatten it up a little.

Sunday, December 8, 1963

342nd day - 23 days follow

Second Sunday of Advent

Feast of Immaculate Conception

Continued work on the Campo talk and improved it a little. This was a sad day as far as accomplishments were concerned; too many conflicting wants.

Had 6 people in for lunch: The Kelleys from Coronado and Buffalo; Winnie Wright and Lyell Barber; Oscar Cotton and Kathryn McCommen.

Dinner tonight at the Cortez, guests of the Starks. Then to a concert of the Los Angeles Symphony, Brahms no. 3 and Beethoven No. 5. They also ran in an extra, something by a modern French-American which pounded like genuine fun in a boiler factory.

Monday, December 9, 1963

343rd day - 22 days follow

At the office this morning.
gave the Campo talk another going
over. Mailed foreign Xmas cards
Natural History Board of Directors met
from 4 to 5:30

Tuesday, December 10, 1963

344th day - 21 days follow

At the office this morning. Worked on notes taken at the PUC meeting Dec. 5. Also on Xmas cards

In the afternoon Sersan de Treville came in to discuss her problem of making an antiserum from King snake blood. We discussed various matters connected with this project from 3:30 until 5.

Went to the annual dinner given by the Gas Co Women's Committee tonight. A fairly pleasant time and good food. Was at the Palm Room, US grant. Home at 9:15

Wednesday, December 11, 1963

345th day - 20 days follow

First Day of Chanukah

At the office this morning.

Went over the Campo talk once more; made a few changes and additions; went to the post office and bank.

Gave the Campo talk at the Wednesday Club. I think it went OK; they seemed to like it. There was a full house. Later Miss Breed offered to mimeograph it.

Pretty tired this afternoon, as I always am after talk of this kind.

John Sloan came over from the Natural History Museum with a few problems this afternoon at 4.

Thursday, December 12, 1963

346th day - 19 days follow

At the office this morning.

Addressed Christmas cards and
finished the first round-up.

Wrote some letters.

Got 5 National Medical Library items
back from the Public Library.

Friday, December 13, 1963

347th day - 18 days follow

At the the office this morning. Then to the library for a meeting of the Commission from 10 to 11⁴⁵.

Worked on Christmas Cards in all spare time today and got them already for mailing.

Got word from the U.C. Press today that their stock of Rattlesnakes was all sold out and had been for some time. They are building up a lot of back orders.

Saturday, December 14, 1963

348th day - 17 days follow

Finished up all the Christmas Cards and arranged the order of mailing. Mailed all of those outside of California.

Started work on the keys for the Academic Press paper and found they are going to be more difficult than I expected. Will probably have to split them territorially as they are in Rattlesnakes.

Allen came in to talk business for about an hour this morning.

Received 4 small rattlers as a loan from the University of Kansas, 2 Lepidus clausii from Amulosa, and two that are probably triseriatus triseriatus from Mexico (State) and Morelos.

Went to Scholia tonight, Larry Cook talked on the history of cartography.

Sunday, December 15, 1963

349th day - 16 days follow

Third Sunday of Advent

Got started today on the Check list and Key for the Academic project. Didn't get very far, but at least determined how they were to be handled.

Watched some exciting professional football today.

Monday, December 16, 1963

350th day - 15 days follow

At the office most of the day.
Meeting of the Executive Committee
9³⁰ until noon; followed by a Directors
Meeting until 1³⁰

Went to Herb Kungel's big Solar party
tonight. Stayed from 6³⁰ to 8⁰⁰. A very nice
affair, with very good food.

Tuesday, December 17, 1963

351st day - 14 days follow

At the office this morning.

Conferences with Pinnett and Dellin about Core, PVC, Calif Transmission Line, and other matters.

Wrote some letters.

Worked on a poem for Mrs. Cary.

Meeting of the Zoo finance committee and Board of Trustees 5³⁰ to 8³⁰.

Another bad day in which nothing was accomplished toward the Academic Press project or Rattlesnakes, Ed. 2. This seems to be characteristic of these days around the holidays, a very discouraging situation.

A Tribune reporter interviewed me at length this afternoon about the 1916 flood.

Wednesday, December 18, 1963

352nd day - 13 days follow

At the office this morning.

Meeting of the Executive Committee
from 10 until 11⁵⁰.

Tonight went to "A Man for all
Seasons" at the Fox. It was good, but
as is the case always at these shows
at the Fox, difficult to hear, with a
confusing echo.

Thursday, December 19, 1963

353rd day - 12 days follow

At the office this morning

Finished the Cary jingle

Made a start on the keys to the Academic

Press paper

Went to the Rotary Club this noon -- a
Christmas musical program.

Friday, December 20, 1963

354th day - 11 days follow

At the office most of the morning.
Accompanied Mrs. Heller of the Natural History Museum to their safety deposit box to clip some coupons.

Conferences with H. Dillin on several company matters.

A lot of miscellaneous work but no real accomplishments.

Meeting of the Zoo's pension committee from 4 to 5; I think this winds up the deliberations which please me.

Got a new color television set today -- a gift from wife and kids.

Saturday, December 21, 1963

355th day - 10 days follow

My 80th birthday. I think I'm very fortunate to have made the grade.

Some miscellaneous clean up today, but, of course, no work on major projects.

Went down town for a few minutes today.

Had a birthday party at home tonight; a birthday supper with 24 present, all members of the family. A very enjoyable affair.

Sunday, December 22, 1963

356th day - 9 days follow

Fourth Sunday of Advent

Got back on the job today and
made some progress. Completed the
U.S. Key for the Academic Press and
made a start on the Mexican Key.

Monday, December 23, 1963

357th day - 8 days follow

(At the office this morning.

Did a little shopping.

Drew money for savings account for Xmas needs.

Worked on the Mexican Key, Enyo constitutes a snake hard to characterize.

Tuesday, December 24, 1963

358th day - 7 days follow

At the office this morning.

Had a call from Mayes Curran. He wants to discuss the new Library Ordinance; also the membership of the enlarged Library Commission.

Went over to the library and discussed these matters with Miss Breed. Also received some photostats from the National Library of Medicine.

Did a little shopping.

Made a paste-up for the Key to the Mexican Rattles.

Conference with Dillin about various Company affairs.

Went to a family Christmas party at Allan and Jean's tonight. Many presents, lots of kids, and good food. A very pleasurable event.

Wednesday, December 25, 1963

359th day - 6 days follow

Christmas

Went to Philips at 10⁴⁵ and stayed until 12. Then to Miller's for a turkey dinner. Home at 4.

Worked a little while in the Mexican Key.

Thursday, December 26, 1963

360th day - 5 days follow

At the office this morning.

Worked on the Mexican Key, combining mainland Mexico with Baja California, and almost finished it.

Clara, Cecil and Jay came to supper 'tonight'.

Friday, December 27, 1963

361st day - 4 days follow

At the office this morning.

Mrs. Peckham came in to discuss an investment problem.

Finished the Mexican Key and made a good start on the Check list for the Academic Press paper.

Saturday, December 28, 1963

362nd day - 3 days follow

Finished the first draft of the Check list for the Academic Press project.

Watched pieces of several football games

Cousin David from Baton Rouge called with Dave senior.

Amy, her niece, and Lucy Bell in for supper tonight.

Sunday, December 29, 1963

363rd day - 2 days follow

In the morning watched the National league championship football game -- Chicago Bears vs the New-York giants, which the Bears won 14-10.

Rechecked the Academic Press project check list and got it ready for copying. Wrote letters and did other miscellaneous work.

Checked off the incoming Christmas cards tonight.

Monday, December 30, 1963

364th day - 1 day follows

Worked from 3 to 5 this morning on the Xerox copies of 10 items lately received from the National Library of Medicine.

At the office this morning. Called the mayor and gave him a list of names suitable for appointment to the library Commission.

Went over to the library and did a little work there.

Continued work on National Library of Medicine items.

Transmitted the check list to Miss Molloy today.

Took the Mullers including David to the Chuck Wagon for dinner. Also went to the Waddell Xmas tree party before going to dinner.

Tuesday, December 31, 1963

365th day - The Last Day

New Year's Eve

At the office this morning. Did considerable work on the National Library of Medicine material, carding etc.

Had a meeting of the Executive Committee, Bert and Sherman present by telephone, from 11¹⁵ to 12³⁰.

Went down town twice this afternoon; once to get new auto licenses; once to mail the 1963 1/8 part of the specimen collection before the end of 1963.

International Reply Coupons:

A reply coupon, costing 15 cents, may be purchased at Post Office for
enclosure to your correspondent in any foreign country. Presented at the
foreign post office it will be exchanged for a postage stamp of sufficient
value to prepay an ordinary letter to the U.S.A. Thus, an American may
prepay the reply postage of his foreign correspondent.
